If Broken:

1. Do not use vacuum!
2. Ventilate area (open window) for at least 15 minutes.
3. Carefully scoop up glass fragments and white mercury powder.*
4. Use sticky tape to pick up small glass pieces and powder.
5. Wipe area clean with a damp paper towel.
6. Put all glass, tape, & towels in a zip lock bag, and bring to Techno Trash Bin!
7. Wash hands when finished.

Proper Disposal: take used bulbs to Techno Trash Bin

Techno Trash bins located in Res Hall lobby.

*Fluorescent bulbs contain a small amount of mercury, so handle with care!
