**Office of the
Vice President for Research**

April 30, 2014

Dear Colleagues:

It is an honor to announce the appointment of M. Jennifer Gagnon as the Associate Vice President for Research Administration, effective May 01, 2014. Jennifer has done an outstanding job as Interim Associate Vice President for the past 8 months and has earned this opportunity.

Jennifer is a graduate of UVM who joined the staff of the University in May of 1999. She began her career in research administration in 2002, and became the Director of UVM's Grant and Contract Administrative Services in 2008. Jennifer was instrumental in the efforts to integrate the Office of Sponsored Programs Pre-Award Services and Grant and Contract Administrative Services, becoming a Co-Director of the newly formed unit in 2011. In 2012 she became the Director of Sponsored Project Administration. Over the past 8 months, Jennifer has provided leadership to both Sponsored Project Administration and the Research Protections Office. As a trusted, skilled, and expert partner in the University's sponsored project and other research activities, Jennifer has provided exceptional support to investigators and played a key role in the University's compliance efforts.

Please join me in congratulating Jennifer.

Sincerely,

John N. Evans, Ph.D.
Interim Vice President for Research
