The Staff Council Office pays for 20% of the Staff Council President’s salary for their two years of service through direct distribution. This is intended to compensate the President’s home department for time the President spends on Staff Council business. While we estimate the President’s time commitment at 20% of your time, please note that this time commitment is highly variable throughout the year! Some weeks (such as weeks with Board of Trustees meetings) you can expect to spend the equivalent of 20% of your time on Staff Council business, but there are many weeks when not much is actively happening and the time spent is much lower. The amount of time you can expect to spend is also highly dependent on how many initiatives you launch as you lead the Council, as well as how engaged you wish to be with the various Standing Committees.

If you, your supervisor, or your budget manager have any questions about policies regarding the Staff Council President’s time commitment and funding, please get in touch with the Staff Council Office.
