What is CVPS's vision for plug 'n go?

Step 1: Use plug-in hybrids and electric cars (EVs) to:

- increase grid use off-peak
- reduce gasoline use and emissions

Step 2: Add two-way plug-in to PHEVs and EVs

- increase value of PHEVs and EVs
- increase customer electric reliability with back-up power

Step 3: Add grid dispatch to two-way plug-ins

- make PHEVs and EVs grid resources
- further increase value of PHEVs and EVs

Near Term PlugGo Goals

- Promote education

- Encourage use of off-peak electricity

RATE 9: Residential Time-of-Day Service

- Begin converting our fleet to PHEV
