Graduate Students and Post Doctoral Fellows
Lisa Aultman-Hall, Ph.D.
Updated: October 8, 2009

Graduate Students and Post Doctoral Fellows

- Dr. Gopal Patil, October 2007 – June 2009, Dr. Patil is a faculty member at IIT Bombay.
- Dr. Hyeon-Shic Shin, August 2005–April 2007, Dr. Shin is a research associate at NYU Wagner Rudin Center for Transportation Policy & Management

Ph.D. Students

- Eric Jackson, December 2007, Modeling Vehicle Dynamics and Tailpipe Emissions Using Real-world Data, December 2007. Dr. Jackson is an Adjunct Professor at the University of Connecticut and research at the Connecticut Transportation Institute.
- Jianhe Du, Factors Affecting Driver Route Choice. August 2005, Dr. Du is a research associate at the Virginia Tech Transportation Institute.
- Feng Guo, Nation and State Level Freight Generation Modeling, 2008. Dr. Guo is a faculty member at Virginia Tech.
- Nathan Belz, Started August 2008, Research: Traffic behavior and roundabouts

Masters Students

- James Sullivan, Graduated Spring 2009, Research Area: Network Robustness
- Cassandra Gekas, Started August 2008, Research: Travel and activity times for disadvantaged groups
- Stephanie Mather, Graduated Summer 2006, Research Area: Planning Data
- Patrycja Padlo, Graduated August 2005, Research Area: Young Driver Safety and Use of Nuclear Gauge Readings for Field-based HMA Density Determination. Two conference presentations accepted thus far, one journal paper in review.
- Sarah Bowling, Completed 5/01. Research Area: Traffic count sampling strategies
- Brian Aldridge, Completed 12/99. Research: Truck Route safety
- Jill Clemens Asher, Completed 5/98. Research: 511 travel information services
- Sarah L. Schulte, Completed 12/98. Research: Traffic safety
- Michael F. Adams, Completed 12/97. Research: Tailpipe emissions
- Michael L. Hill, Completed 12/97. Research: Intermodal freight research
