<u>**Creating an Intro to Careers in Transportation Prezi**</u>

Directions:

1. Go to www.Prezi.com/support to learn how to use Prezi.

2. Read the directions below.

3. Copy the prezi found here http://prezi.com/0klpd6gwekzd/intro-to-careers-in-transportation/.

4. Customize the Prezi for your TSA.

5. Present!

Introduction to Careers in Transportation is usually the first course of any TSA. Its goal is to give students insight into the types of careers and positions they can pursue after they complete the TSA. Below is the different sections of the Intro to Careers in Transportation Prezi and how you should customize it to your program.		
Section		**Instructions**
		This intro slide outlines what you plan on teaching throughout the course.

	This slide outlines the learning objectives of every Intro to Careers in Transportation course.
	Here, discuss the transportation system as a whole, and the local transportation system.
	Each of the circles in this section includes a video about working in the mode as well as information regarding jobs in that mode. Please feel free to edit based on your local industry.

Insert Your TSA Courses here:

[   ] [   ]

In this section you can outline all the courses you plan to have in your TSA.

Think About it!

How did you get to school when you were 10 yrs old?

For this section students write about how they traveled to school when they were 10 and discuss the jobs that made their commute possible. This activity allows students to start thinking about the importance of jobs within the transportation industry.
