Guideline 10: Justify comments such as “no studies were found.”

1. Right database, wrong search terms
   - Search terms
   - Treat published lit. reviews as “sources of sources”
   - Contact experts?

2. Wrong database
   - Medical? Try PubMed and CINAHL at Dana Medical Library
   - Education? Try ERIC

Seek out expert opinion

- Published expert opinion
- Literature review
- Theoretical articles
- “Handbooks”
- Annual Reviews
- Course instructors
Guideline 13: Speculate on the reasons for inconsistent findings in previous research.

That's it for Module 9!
