All youth have leadership potential. Leadership is a set of skills and attitudes that can be learned and developed. Youth at any age can begin to develop leadership skills in their homes, schools and clubs. They hold the capacity through their leadership to make a difference in others’ lives, their communities, their county, and their world.

Workshop Goals:
- Understand and acquire transferable skills/life skills/leadership skills.
- Recognize ways to use these skills in real world situations.
- Develop self-awareness.
- Have fun!

What Participants Have to Say:

“I learned how being a leader requires you to know the strengths and weaknesses of people in your group.”

“I learned more about who I am as a person from doing the personality tests. I also learned I am not the only one with difficulties standing up and having a voice, and I learned how to overcome that challenge.”

“Learning leadership is fun. Why can’t school be more like this?”

“I learned that communication helps to let everyone know what you’re talking about, and help them understand. I’ll use it to help other people understand me. That way there won’t be any misunderstanding.”
