List of Apparatus

Pneumatics

The Airpump with additional articles 200:0:

Electricity

Electrical machine with app’s in a box 56:0-
Magic picture 2.25 Small jar 1.25 3:50-
* A large jar with cap ball and wire of
  about 250 sq: inches coated surface 4:0:0
Universal discharger and press 8:0:0

* The together will all show ye purpose of a small
  battery as ye press increased ye power.

Copper plate and stand for images 2:75:0
Electrical spiral tube 2:0:0
Luminous conductor and flask fitted to
  ye air pump syringe 10:0:0
Electrical swan 60 cts roll of gilt leather 25 0:85:0
6 Electrical pith ball turned of various size 0:30:0

Magnetism

a 2nd hand compound horseshoe magnet 6 inches
Long of 5 bars inclosed in a brass box 8:50:0
2 small magnetic needles on brass stand showing
  ye attraction and repulsion of ye two poles 1:50:0
A box of magnetic fish with small magnet which
  swimming show ye attraction and repulsion of
  ye same magnet 2:0:0
299:40:0

(pg. 2)

Brought forward-----------------------------299:40:0

a 5 inch compass with brass and paper graduated
circles in a sqr: mahogany box 3:0:0
very cheap
Optics

A Solar microscope in brass and wood with an additional black mirror proper for experiments with ye prisms

A set of Prisms (9) one of extra size and cut glass for exper’ts on rays of light

A large concave mirror glass 15 inches in diam and

A cylindrical mirror 15 inches in diam

1 strong burning lens 5 +1/2 in diam’r 8 foc

1 large common lens 5 +1/4 diam’r 22 focus

A portable box camera obscura with two drawers and 2 lenses and grayed glass for receiving ye picture which may be copied. box. 15 inches long by 9 a lens 15 inch focus ye other 24 foc

A scioptic ball and socket 2 lenses

Hydrostatics

An artificial fountain with bet set of jets

A large hydrostatic jar

An 18 inch best pantagraph all in brass

For reducing or enlarging maps and graphs

(Pg. 3)

Brought forward-----------------------------------443:65:0

1 long tube one inch diam’r 2:50:-

Some shorter and smaller not yet fluted amounting to about 2:50:0

1 doz candle bombs for shewing ye effect of confined vapor 0:25:0

1 doz Rupert’s drops 0:30:0

This apparatus must go in two rough cases which will be about 4:0:0

453:20:0

One pulse, and one boiling glass 1:75:00

By Magic Lantern 45 deducting 21 for the Pantagraph omitted 24-
