After reading the articles, #9, *Day Care in America* by Scarr and #10, *Marital Transitions* on divorce by Hetherington et.al, answer the following questions in full. Each question is worth 2 points. Please type your answers.

1. Based upon your reading of Scarr's article on day care in America, what type of day care would you choose for your child and why? What would you expect the results of that choice to have on your child's cognitive and socio-emotional development? **2 pts.**

2. The authors of *Marital Transitions* discuss 5 theories to explain the findings that children in divorced or reconstituted families may have more adjustment and academic difficulties than those from intact families. Which of the 5 theories, or which combination of theories, do you feel from your readings and personal experience, give the best explanation for the findings and why? **2 pts.**

******

For Discussion:

Were there any findings that you found surprising or any which your personal observations do not validate? Describe the findings. Are they believable?
