Reading List

K. Rice Institute, 1985.

Since this is an experiential learning course, attendance is the most important part of students' grading.

The above articles are suggested readings to enhance students' learning and help them in writing their papers.

Each student would pick up a topic in consulting with me to write based on their experiential learning. Students' are required to write two papers with minimum of two pages each.

Please let me know if there is any questions.

Warmly,

Shahin
