

Why is *that* study news? Getting your research covered in the popular science press

Science Magazine

Tim is the News Editor of Science Magazine. He came to University of Vermont to give a public seminar on science research in the popular media.

Visitor: Tim Appenzeller

Visit dates: April 12 2018

Tim visited the Community Cosmogenic Facility to learn about the laboratory, meet other visitors, hear about collaborative projects, and observe cation column chromatography methods.
