

Laura Johanna May-Collado

Department of Biology
University of Vermont

Email: lmaycoll@uvm.edu

Homepage: <http://www.lauramay-collado.com/>

109 Carrigan Drive, Department of Biology, University of Vermont, Burlington VT 05405
Office: 217 MLS; Phone: (802) 656-4138

PhD: 2007. Total pubs: 40. IWC Reports: 16, H-index (G-Scholar): 22; i10Index: 33; Research Gate: 27.08; Grants: ~\$451,000. Media: **Newsweek, BBC Earth, NPR Science Friday, Scientific American, Newsweek, TedexPuravida, Gizmodo, Smithsonian.**

Google Scholar: <https://scholar.google.com/citations?user=HUUPac4AAAAJ&hl=en>

Research Gate: https://www.researchgate.net/profile/Laura_May-Collado

Research Interests: Marine Mammals, Marine Soundscape Ecology, Animal Acoustic Communication, Evolution & Phylogenetics, Behavioral Ecology & Marine Conservation Biology.

Positions Held

- Research Associate. Smithsonian Tropical Research Institute. 2019-2022.
- Life Science Scholar Program Director. College of Art and Sciences. University of Vermont. Present.
- Lecturer, Department of Biology. University of Vermont. 2014-present.
- Lecturer, Department of Biology, University of Puerto Rico. 2009-2012.
- Coordinator of Zoology Labs. Department of Biology, University of Puerto Rico. 2012-2011.
- Coordinator of Field Tropical Biology, Organization for Tropical Studies, Costa Rica. 2008.
- Field Teaching Assistant. Field Biology Institute Monteverde, Costa Rica. 1997-2000.
- Field Teaching Assistant of Field Tropical Ecology, Organization for Tropical Studies, Costa Rica. 1997, 2001.

Affiliations

- Co-Founder of Panacetacea. 501(c)3 a nonprofit organization dedicated to the study of marine mammals in Central America and to the training of young Central American Scientists.
- Research Associate at Centro de Investigaciones del Mar y Limnología (CIMAR), Universidad de Costa Rica
- Affiliated Professor at Universidad Marítima Internacional de Panamá.

Postdoctoral Positions

- Postdoctoral Investigator. University of Vermont. 2013-2014. Trained in molecular techniques to study the biogeography of whip less spiders of the Caribbean. Under: Dr. Ingi Agnarsson.
- Postdoctoral Research Associate. University of Puerto Rico. 2009-2010. Trained in soundscape analyzing to study and improve animal monitoring efforts using passive acoustic technology. Under: Dr. Mitch Aide.

Education

- **Ph.D., Biology. Florida International University.** 2003-2007. “*Phylogenetic and ecological significance in the evolution of Cetacean tonal sounds*”. Under: Dr. Douglas Wartzok. <http://digitalcommons.fiu.edu/dissertations/AAI3301615/>.
- **M.Sc., Biology. University of Costa Rica.** San Jose, Costa Rica. 1998-2001. “*Ecology and Behavior of spotted dolphins in the northern Pacific coast of Costa Rica*”. Adviser. Dr. Alvaro Morales.
- **B. Sc., Biology. University of Costa Rica.** San Jose, Costa Rica. 1992-1996.
- **Visitor Scholar**, Biology. Portland State University 1997-1998.

Honors, Nominations, and Fellowships

- President’s Distinguished Lecture Awardee 2019-2020.
- Nominated to the PEW Marine Trust Award. 2018.
- WWF-Russel E. Train Scholarship. 2005-2007.
- Associate Member of Sigma Florida International University Chapter 2007.
- Dissertation Year Fellowship. Florida International University. 2007.
- Honor graduation. M.Sc. University of Costa Rica. 2000.

Memberships

- Society for Marine Mammalogy
- Acoustical Society of America
- SACNAS: Advancing Chicanos/Hispanics & Native Americans in Science

Professional Development

- CTL Teaching Effectively Online. 2020.

Academic and other Services

University

- **Chapter Advisor for Society for Advancement of Chicanos/Hispanics and Native Americans in Science (SACNAS) at UVM.** 2020.
- **Advisor and Committee member** for undergraduate students at UVM Biology and Rubenstein. 2017-2020.

Professional

- **Invited Scientists to participate in the Identification of Important Marine Areas (IMMAs) in the South East Tropical and Temperate Pacific Ocean Region in February 2021.** organized by the Marine Mammal Protected Areas Task Force funded by the GOBO-IKI initiative, the Government of Germany, MARVIVA, and the Tethys Research Institute. *The invited scientists will participate in a workshop to designed a standardized approach for the global identification of marine areas that are relevant to marine mammals in support of the Convention on Biological Diversity (CBD).*
- **Member of the Committee of Scientific Advisors for the Society for Marine Mammalogy.** 2011-present. *I review 15 Grants-in-aid proposals and provide scientific advice to the board of trustees.*
- **Member of the International Whaling Commission (IWC) Scientific Committee.** 2012-present. *Contribute to working groups on Small Marine Mammals and Whale-watching.*
- **Scientific Advisor to Ministry of the Environment in Panama (MI AMBIENTE).** 2016-present.
- **Committee Advisor** for graduate students from the following universities: Universidad Autónoma de Baja California, Universidad Maritime International de Panama, University of New York, Universidad de Costa Rica, Universidad Nacional de Costa Rica, Universidad Jose Tadeo Lozano, Universidad de Antioquia, and Universidad de los Andes, Colombia, Universidad Nacional del Litoral, Argentina, University of Rostock, Germany, George Mason University, University of Puerto Rico, University of Anchorage, McGill University.

- **Reviewer-Manuscripts:** Current Biology, Naturwissenschaften, BMC Evolutionary Biology, Proceedings of the Royal Society B, Molecular Phylogenetics and Evolution, Systematic Biology, Marine Mammal Science, Journal of the Marine Biological Association of the United Kingdom, Revista de Biología Tropical, Revista Científica UDO Agricola, Zoologica Scripta, Marine Environmental Research, Revista Ciencias Marinas, Latin American Journal of Aquatic Mammals, Marine Biodiversity Records, Pacific Science, Aquatic Mammals, Axios, Acta Ethologica, Pacific Science, Frontiers Marine Science, Frontiers Ecology and Evolution, Frontiers Marine Science, Scientific Reports, Bioacoustics, Aquatic conservation Marine and Freshwater Ecosystems, Behaviour, Journal of the Acoustical Society of America, PLOS ONE, Journal of Caribbean Science, Neotropica.
- **Grant Panels:** New York Sea Grant, NSF Division of Environmental Biology, Schmidt Ocean Institute, Sea Grant Puerto Rico and New York, Grants-in-aid for the Society for Marine Mammalogy.
- **Northeast Regional Environmental Acoustic Network Education member.**

Grants & contracts (selected)

- Moore Foundation. 2020. Research Grante. Co-PI. \$21,000. “*ONDAS: acoustic monitoring of marine communities in Central America*”. 100% devoted to deployment and data analysis of passive acoustic recorders in Panama.
- Panacetacea. 2020. Research Grant. PI. \$5000. 100% effort devoted to data analysis for manuscripts.
- Global Environment Effort. 2020. Co-PI. “*Studying the habitat of cetaceans through the soundscape and the anthropogenic impact*”. \$273,000. Role deployment of recorders, data analysis, and publications. Time devoted 60%. Starting in December 2020. Invited to participate.
- United Nations Development Programme & Ministry of the Environment, Panama. September-December 2017. “*Monitoring the health of marine communities in two marine protected areas: Archipelago of Perlas and Coiba National Park, Panama using autonomous underwater recorders*.” \$28,900. Role deployment of recorders, data analysis, and publications. Time devoted 70%.
- Conservation International, Costa Rica. June 2016 to March 2017. “*Evaluation of the impact of boat traffic on marine mammals and marine communities of the Cano Island Biological Reserve, Costa Rica using autonomous underwater recorders*”. \$40,000. Role deployment of recorders, data analysis, and publications. Time devoted 100%.
- Cetacean International Society. 2015. \$700. PI. Field expenses.
- Waitt Foundation-ROC. \$10,000. PI. Fieldwork and outreach activities. Time devoted 100%.
- Private donations of Underwater Acoustic Unit for Research. 2011. \$6000.PI. Role deployment of recorders, data analysis, and publications. Time devoted 100%.
- Whale and Dolphin Conservation Society. 2007. \$2,015. PI. Time devoted 100%.
- WWF-Russel E. Train Scholarship. 2005-2007. \$27,100. PI. Time devoted 100%.
- American Society of Mammalogists, Latin American Student Field Research Award. 2006. \$1,500. PI. Time devoted 100%.
- McArthur Foundation-Nature Conservancy Research Grant. 1998. \$5,000. PI. Time devoted 100%.
- Society of Marine Mammalogy, Emily Shane Award. 1998. \$7,200. PI. Time devoted 100%.

Field Experience (selected)

- PI. Acoustic monitoring of marine mammals and their habitats in Central America. 2011-present.
- PI. Population and behavioral surveys of bottlenose dolphins in Panama. 2004-present.
- PI. Cetacean's abundance and acoustic monitoring Caribbean of Costa Rica. 2003-2007.
- PI. River dolphin expedition to the Yasuni National Park, Ecuador. 2005.
- PI. Cetacean's abundance surveys in Northern Pacific of Costa Rica. 1998-2001.

Teaching Experience

University of Vermont

- **Course-based undergraduate research experience (CURE) Soundscapes and Behavior Research (BIOL 188-A, LASP BIOL096).** The core of this course is to apply the process of science through the development of research on marine soundscape ecology and marine mammal behavior. The goal is that students become leaders of their research projects while maintaining an atmosphere that promotes communication and collaboration among peers and with my colleagues from abroad. Students develop projects on topics including *Passive Acoustic Monitoring*, *Soundscape Ecology*, *Application of 'drones' technology to study marine mammal behavior*, *Photo-identification of marine mammals*, *Animal bioacoustics (e.g., fish, dolphins, manatees, and whales)*, *Impact of shipping noise on marine life, etc.*
- **Special Topics: Animal Communication (BIOL 296).** University of Vermont. Spring 2018. This course provides an overview of the different modes used by animals to communicate, with an emphasis on acoustic communication and field methods.
- **Introduction to Marine Sciences (BIOL 199).** University of Vermont. Spring 2018. This course focuses on providing students with baseline information on oceanography, ocean chemistry, and marine biodiversity. We will also hot topics on climate change, fishing, and ocean exploration.
- **Biology of Marine Mammals (BIOL 295).** University of Vermont. Summer 2018. This course provides an overview of the biology of marine mammals with emphasis on the use standard methods to determine population size, site fidelity, home range, and behavior during lab hours.
- **Mammalogy (Biol-217).** Department of Biology. University of Vermont. Fall 2017. This course focuses on the evolutionary and ecological aspects that have made mammals such a morphological and functionally diverse group of vertebrates. The lab provides students an opportunity to use field data and online tools for students to develop their independent research projects.
- **Special Topics: Marine Soundscape (BIOL 195).** Department of Biology. University of Vermont. Fall 2017. This course provides undergraduate students the opportunity to learn about soundscape ecology and develop their own research.
- **Independent Research Seminar. Department of Biology (BIO 295).** University of Vermont. Spring Fall 2015- 206. This course provides undergraduate students to be part of ongoing research develop my myself and graduate students, providing the opportunity work in a team and publish their first manuscript.
- **Exploring Biology-Organismal Biology (BCOR12)** Department of Biology, University of Vermont. Spring 2015-present. This is an introductory to basic process in organismal biology. Students evaluations consistently positive and above departmental mean.
- **Exploring Biology-Organismal Biology (BCOR11).** Department of Biology, University of Vermont. Fall 2015. This is an introductory to basic process on biology, with focus on molecular biology, cell division and communication. Students evaluations consistently positive and above departmental mean.
- **Marine Mammal Biology Field Course (BIOL 295).** Summer 2015. This is field course aimed to learn scientific inquiry and basic methods to study marine mammals. Students evaluations consistently positive and above departmental mean.
- **Evolution (BIOL 271).** Department of Biology, University of Vermont. Fall 2014. This an upper level undergraduate course aimed to learn and discuss evolutionary process. Students evaluations consistently positive and above departmental mean.

University of Puerto Rico

- **Zoology.** Department of Biology, University of Puerto Rico. 2010-2012. This course used a phylogenetic background to study the evolution of animals, their adaptations, behavior and ecology. The lab combined comparative anatomy, field, and experimental components.
- **Animal Communication Seminar.** Department of Biology, University of Puerto Rico. 2012. This course was developed for graduate student to discussed different aspect of animal communication from signal emission, to processing, and adaptations to an ever-changing world.
- **General Biology II.** Department of Biology, University of Puerto Rico. 2009-2010. Introduction to organismal biology, ecology, and behavior.

Private institutions

- **Field Tropical Biology.** Organization for Tropical Studies, Costa Rica. 2008. This course introduced undergraduate students to the tropics, we visited dry forest, cloud forest, and rainforest, and develop research projects with the guidance of guest scientists.
- **Tropical Biology – An Ecological Approach (English).** Organization for Tropical Studies, Costa Rica. 2001. This course introduced graduate students to the tropics, we visited dry forest, cloud forest, and rainforest, and develop research projects with the guidance of guest scientists.

University of Costa Rica

- **Mammalogy**, Department of Biology, University of Costa Rica. 1995
- **Ornithology**, Department of Biology, University of Costa Rica. 1996.
- **Botany**. Biology, Department of Biology, University of Costa Rica. 1994.

Invited Seminars and Talks (since joining UVM=*)

- **Panelist to the United Nations Decade of Ocean Science/Benioff Ocean Initiative for Day with Children in California** (in Spanish), California, January 29, 2021. (700 kids joined the activity).
- **Speaker, Coastal Discovery Museum, South Carolina.** January 27, 2021 **(for the public)**.
- ***Speaker, Washington's Friday Harbor Laboratories**, Marine Science Seminar Series, December 2, 2020.
- ***Seminar at Syracuse University**, selected by Graduate Students. November 16, 2020.
- ***Keynote Speaker at the First Cetacean Meeting in Central America, Panama.** March 11th, 2020.
- ***Guess Scientists** by the World Marine Mammal Conference (WMMC) Student Chapter to participate in the Student Networking Event “Profs & Pints”. Barcelona, Spain, December 10, 2019.
- ***Invited Speaker at the Small dolphin social dynamics Workshop** at the WMMC, Barcelona, Spain, December 8th, 2019.
- ***Invited Speaker UVM's Feverish World Symposium**-Underwater Soundscapes, November 30, 2018.
- ***Invited Speaker at Naos Science Friday**. Smithsonian Tropical Research Institute. Evolution of Acoustic Communication in whales. 2019.
- ***Invited Speaker for the Animal Communication Symposium**, Nebraska, July 18-22, 2017. On the evolution of acoustic communication of aquatic mammals and their terrestrial relatives.
- ***Seminar at University of Costa Rica.** Using remote underwater recorders to study cetacean's habitat use.
- ***Tupper Seminar Series**, Smithsonian Tropical Research Institute. Evolution of Acoustic Communication in whales. 2015.
- **Seminar at University of Vermont.** Evolution of Acoustic Communication in Whales and their Terrestrial Relatives. 2013.
- **Seminar at Syracuse University.** Evolution of Acoustic Communication in Whales and their Terrestrial Relatives. 2012.

- **Symposium on complex communication and complex society.** Joint Meeting of the Animal Behavior Society and the International Ethological Conference, Indiana, USA. July 25-30. 2011.
- **Seminar at University of Akron.** Phylogenetic and Ecological Significance of toothed whale communication acoustic signals. 2007.
- **Seminar at University of British Columbia.** Phylogenetic and Ecological Significance of toothed whale communication acoustic signals. 2006.

Workshops Initiatives

- *SPLASH-2.* December 1-3, 2020. Population status of northern hemisphere humpback whales.
- **RIEMMCCA: Network of Aquatic Mammal Specialists of Central America and the Caribbean.* 21st Biennial Conference on the Biology of Marine Mammals, San Francisco, December 2015.
- **Unmanned Aerial Systems:* Powerful and Cost-Effective Tools for Marine Science and Conservation. 21st. Biennial Conference on the Biology of Marine Mammals, San Francisco, December 2015
- **Drones and their potential use in marine mammal studies.* SOLAMAC, Cartagena, Dec. 1-5, 2014. Oral Presentation part of the Whale-Watching Symposium.
- *Phylogenetic tools.* 18th Biennial Conference on the Biology of Marine Mammals, Quebec. 2008. Oral Presentation.

Mentoring and Advising

1. Doctoral Candidate Betzi Perez, McGill University, Montreal, Co-advising with Dr. Andrew Hendry. 2015-present.
2. Doctoral Candidate Eric Ramos, University of New York. Committee Member. Advisor Dr. Diane Reiss. 2015-present.
3. Doctoral Candidate Simone Antichi, Universidad Autónoma de Baja California. Committee Member, adviser Dr. Viloria. 2020-present.
4. Doctoral Student Maia Austin, Department of Biology, University of Vermont. 2020-
5. Emma Gagnes. University of Vermont. Accelerated Master's Program in Biology. 2020-
6. Stefania Diaz Melo. Universidad de Antioquia, Colombia. Co-advised with Profs. Maria Camila Rosso Londono. 2019-present.
7. Honor Thesis Kahlia Gonzalez. Department of Biology, University of Vermont. 2018-present.
8. Honor Thesis Summer Barnes. Department of Biology, University of Vermont. 2018-present.
- 9.

Former students

10. Honor Thesis Kate Ziegler. Department of Biology, University of Vermont. 2018-2020.
11. Honor Thesis Riley O'Halloran, Department of Biology, University of Vermont. 2018-2020.
12. Honor Thesis Carly Sarbacker. Department of Biology, University of Vermont. 2018-2020.
13. Honor Thesis Emma Chereskin. Department of Biology, University of Vermont. 2016-2018.
14. Ph.D. Dalia Barragan-Barrera, Universidad de Los Andes, Colombia, Co-advised with Dr. Susana Caballero. 2012-2018.
15. Ph.D. Gabriel Melo Alves dos Santos, Universidade Federal do Para, Brazil, Co-advised with Dr. Maria Luisa Da Silva. 2015-2018.
16. M.Sc. Ayshah Kassamali-Fox. Antioch University New England, USA. Co-advised with Dr. Beth A. Kaplin. 2014-2017.

17. Ph.D. Ashley Sitar, Ph.D. Department of Environmental Sciences and Policies, George Mason University. Co-advised with Dr. Chris Parsons. 2013-2015.
18. M. Sc. Shakira Quiñónez, University of Puerto Rico. Co-advised with Dr. Mitch Aide. 2008-2012.
19. M. Sc. Jose Arístides Ponce Santamaria, Universidad Marítima Internacional de Panamá. Co-advised with M.Sc. Jose Julio Casas. 2012-2014.
20. M. Sc. Monica Gamboa Poveda, Universidad Nacional de Costa Rica. Adviser. 2004-2007.
21. M. Sc. Jose Damián Martinez, Universidad Nacional de Costa Rica. Adviser. 2004-2007.
22. M. Sc. Andrea Montero Cordero, Universidad de Costa Rica. Co-adviser with Dr. Jorge Lobo. 2004-2007.
23. Lic. Jose D. Palacios Alfaro, Universidad Nacional de Costa Rica. Adviser. 2004-2007.
24. Lic. Raúl Sobrero, Lic. Facultad de Humanidades y Ciencias. Universidad Nacional del Litoral, Argentina. Adviser 1999-2001.
25. B. Sc. Evelyn Taubitz. University of Rostock, Germany. Adviser. 2004-2007.
26. B.Sc. Joel Sánchez, Universidad Marítima Internacional de Panamá, Co-advised with Prof. Jose Julio Casas. 2015.
27. B.Sc. Roberto Santamaria, Universidad Marítima Internacional de Panamá, Co-advised with Prof. Jose Julio Casas. 2015.
28. B.Sc. Whitney Kwiers, Universidad Marítima Internacional de Panamá, Co-advised with Prof. Jose Julio Casas. 2015.

Former students' whereabouts

- Emma Chereskin will be starting a M. Sc. in Bristol University under the supervision of Dr. Stephanie King.
- Gabriel Melo Alves dos Santos is a Postdoc fellow at St Andrews University under the supervision of Dr. Vincent Janik studying the contact calls of river dolphins.
- Andrea Montero Cordero is the Conservation Manager of Marine Protected Areas at FAICO-Amigos de la Isla del Coco.
- Monica Gamboa Poveda is the Marine Conservation Officer at Costa Rica por Siempre, is an association created to protect marine and terrestrial ecosystems in Costa Rica.
- Jose David Palacios Alfaro. Co-Founder of KETO a non-profit organization dedicated to the study and protection of marine communities in Costa Rica.
- Shakira Quiñónez and Ayshah Kassamali-Fox are working on their Ph.D. in Slovenia and New England, respectively.
- Raul Sobrero is professor at Universidad National del Litoral in Argentina where he leads a lab using phylogeny to study the relationships and behavior of caviomorph rodents.
