

CURRICULUM VITAE

David W. Hosmer, Jr.

Address: 128 Worcester Road
Stowe, Vermont, 05672
(802) 253-0810
hosmer@schoolph.umass.edu

Education:

1966	BA	Mathematics, University of Vermont
1968	MA	Mathematics, University of Vermont
1971	Ph.D.	Biostatistics, University of Washington

Experience:

1966-1968	University of Vermont, Mathematics Department, Teaching Assistant.
1968-1971	University of Washington, Department of Biostatistics, Teaching Assistant. University of Washington, Division of Cardiology, Department of Medicine, Statistical Consultant.
1971-1973	University of California, Los Angeles, Biostatistics Division, Assistant Professor.
1973-1978	University of Massachusetts, Division of Public Health, Assistant Professor.
July 1-30, 1976	University of Washington, Department of Biostatistics, Visiting Assistant Professor.
1979-1989	University of Massachusetts, Division of Public Health, Associate Professor.
1989-2002	University of Massachusetts, Department of Biostatistics and Epidemiology School of Public Health and Health Sciences, Professor.
2002-	University of Massachusetts, Department of Biostatistics and Epidemiology School of Public Health and Health Sciences, Professor Emeritus
2004-	University of Vermont, Department of Mathematics and Statistics, Adjunct Professor
2012-2003-	University of Tasmania, Menzies Research Institute, Honorary Fellow
2013	University of Tasmania, Menzies Institute for Medical Research, Adjunct Professor

Publications:

Bruce, R.A., Kusumi, F. and Hosmer, D. (1973). Maximum oxygen intake and nomographic assessment of functional aerobic impairment in cardiovascular disease. *The American Heart Journal*, 85(4): 546-562.

Hosmer, D.W. (1973). On the MLE of the parameters of a mixture of two normal distributions when the sample size is small. *Communications in Statistics*, 1(3): 217-227.

Hosmer, D.W. (1973). A comparison of iterative maximum likelihood estimates of the parameters of a mixture of two normal distributions under three different types of sample. *Biometrics*, 29 (4): 761-770.

Bevan, J.A., Hosmer, D.W., Ljung, B., Pegram B., Su, C. (1974). Norepinephrine uptake, smooth muscle sensitivity and metabolizing enzyme activity in rabbit veins, *Circulation Research*, 34: 541-548.

Hosmer, D.W. (1974). Estimating the parameters of a mixture of two regression lines, *Communications in Statistics*, 3 (10): 995-1006.

Bevan, J.A., Hosmer, D.W., Ljung, B., Pegram, B., and Su, C. (1974) Innervation pattern and neurogenic response of rabbit veins, *Blood Vessels*, 11: 172-182.

Wasti, S.S., Hosmer, D.W., Barney, W.E. (1975). Population density and larval competition in diptera I. Biological effects of intraspecific competition in three species of muscid flies. *Journal of Applied Entomology*, 79 (1): 96-103.

Wasti, S.S., Hosmer, D.W., Blum, S.B. (1975). Population density and larval competition in diptera II. Two way interspecific competition in three species of muscid flies, *Journal of Applied Entomology*, 79 (4): 428-435.
