

# Winter Fruit Meetings

## 14 Free Webinars for New England Fruit Growers!

In an effort to provide fruit growers the same high quality educational opportunities we have in the past and because we are unable to hold face-to-face meetings due to COVID-19, fruit Extension Educators throughout the New England region joined forces in a collaborative effort to develop a winter series of online educational programming for commercial fruit growers. Registration is required for each seminar and pesticide recertification credits will be available. The 11/11 meeting starts at 6 pm, but the remainder of the sessions will begin at noon and typically last until 1:30 p.m.

## Partners

The University of New Hampshire Cooperative Extension is an equal opportunity educator and employer. UNH, U.S. Dept. of Agriculture, and New Hampshire counties cooperating.
