The permittee shall comply with this authorization and all the terms and conditions of General Permit 3-9014, including the payment of annual operating fees to the Department. A billing statement for such fees will be sent to the permittee each year. Any permit non-compliance constitutes a violation of 10 V.S.A. Chapter 47 and may be grounds for an enforcement action or revocation of this authorization to discharge. Nothing in this permit shall be construed as having relieved, modified, or in any manner affected your on-going obligation to comply with all other federal, state or local statutes, regulations or directives applicable to you in the operation of your activities, nor does it relieve you of the obligation to obtain all other necessary state, local and federal permits. Projects identified in the Flow Restoration Plan (FRP) that have a separate state stormwater permit, and have not been incorporated into the MS4 authorization, will be subject to the schedule of compliance of the project’s permit, not by the FRP.
