Why Elect Liv Bednarik for President?

"As a Black, bisexual woman, my fears of our nation today reflect many of our students' fears and anxieties. No matter what anyone's political views are, it should be universally understood that everyone is equal and should be treated as such. That is why I am running for President of SGA. In my Presidency, I want to hold the university accountable for its promises that we, as a whole, will live to our Common Ground, something that has not always felt true for people on campus. I want not only UVM but the Burlington Community to come together to protect those most vulnerable during the next upcoming year. And most of all, I want UVM to feel like a place of acceptance, honesty, and accountability. We all owe it to each other to ensure that this campus is not only good for its word on paper, but in its actions as well"
