

Hi everyone! My name is Leah Theroux and I have had the honor to serve as a senator on the Committee on Our Common Ground Values this past year. During my time on SGA, I have accomplished more than I thought was possible as a student here at UVM. I loved being able to work on MARCH and help plan this event that gets to honor gender equity in our University. For my personal projects, I am working with WAGE to form a reproductive rights group here on campus. My goal with this group is to create a safe space for students and give an opportunity for people to discuss their experiences, thoughts, and feelings. I also have worked with some of my fellow senators on transgender issues and addressing our political climate. Serving on SGA has been the highlight of my college years so far and I would love to continue to serve on SGA. Do not Ther-oux away your shot to vote for Senator Theroux!
