Platform for Peyton Paquette for Reelection as SGA Senator:

I am running for reelection as an SGA senator as an embodiment of my commitment to the Student Government Association community and the University of Vermont community as a whole. Throughout my two years here at UVM, the University body and specifically the SGA has become a family to me that I wish to see prosper and flourish in an environment that embodies respect, inclusiveness, and appreciation for the hard work and dedication of all UVM students.

I have been told, even though it certainly did not use to be this way, that I am a very sociable person that possesses the ability to work with a number of different people effectively and build upon/support/work with the ideas of people that I do not necessarily agree with on all issues. I, additionally, am highly adaptable to the amount of work I can take on in my life as I have developed effective time management skills alongside learning how communication can be one of the most valuable tools, even in work that I take on individually.

I have been an SGA senator for the academic year of 2024-2025 and have been a member of the Club Affairs Committee for the entirety of my tenure. My work on the Club Affairs Committee is a testament to my hardworking nature as the work this committee does is non-stop. For this committee, we have turned into a collective that actively understands each other, relies on each other, and most importantly, knows the value of the work we all do on this committee.

If I am to be reelected to SGA, I will strive to ensure that all student organizations on campus have a direct connection to the broader SGA body through the Club Affairs Committee. Additionally, I will work to become a senator on SGA that can embody the values that UVM's campus and SGA stands upon.

If I was able to convince you that I am a hardworking and effective leader to remain a senator on the SGA, please consider voting for me in my reelection campaign. Love y'all!
