

As we close today's conference...

Maternal Health Innovations Grant : 5 years

Goals:

1. Reduce maternal mortality and severe maternal morbidity (SMM)
2. Sustainable improvements in maternal health service delivery, data collection and policy development

Grant activities:

Maternal Health Task Force and 5-Year Maternal Health Strategic Plan
Data integration and a public Maternal Health Annual Report
Qualitative studies
Regional Perinatal Quality Collaborative Partnerships,
Innovations with potential for replication, scale-up, and sustainability
Offer statewide training across the service system

Join the MHI planning process!

Two Kickoff Meeting Options

To launch this process, we're offering **two virtual kickoff meetings**—both will cover the same content, so please choose the one that works best with your schedule. Email Emily.j.smith@vermont.gov for registration details.

Thursday May 29th 9:00am – 10:30am

Tuesday June 3rd 2:00pm – 3:30pm

This work will continue through September 2025, and your contributions will help ensure that Vermont's maternal health system is more coordinated, equitable, and responsive to the needs of all birthing people and families.

Complete the Interest Form

We'd love to know how you'd like to participate. Whether you want to stay informed, join working groups, or be part of the core advisory team, please let us know.

Upcoming Webinar

Spring 2025 ICoNS Statewide Call

June 17, 2025

12:00-1:00 PM

**Human Trafficking:
Recognize, Refer and Collaborate**

SAVE THE DATE

Spring 2025 Statewide Call

**Improving Care of Newborns with
Substance Exposure
(ICoNS)**

Register Today!

June 17, 2025 * 12:00-1:00 PM

**Human Trafficking:
Recognize, Refer and Collaborate**

Katie Newell
Human Trafficking Case Manager Coordinator

Participants will explore how definitions of human trafficking shape prevention efforts and response strategies. The training will focus on recognizing trafficking indicators, delivering meaningful interventions, and building sustainable collaborations to support survivors effectively.
