

CONSTRUCTION NOTICE

Terrill Building Tunnel Steam System Work

What Is Happening?

Steam and condensate piping work in the Terrill Building.

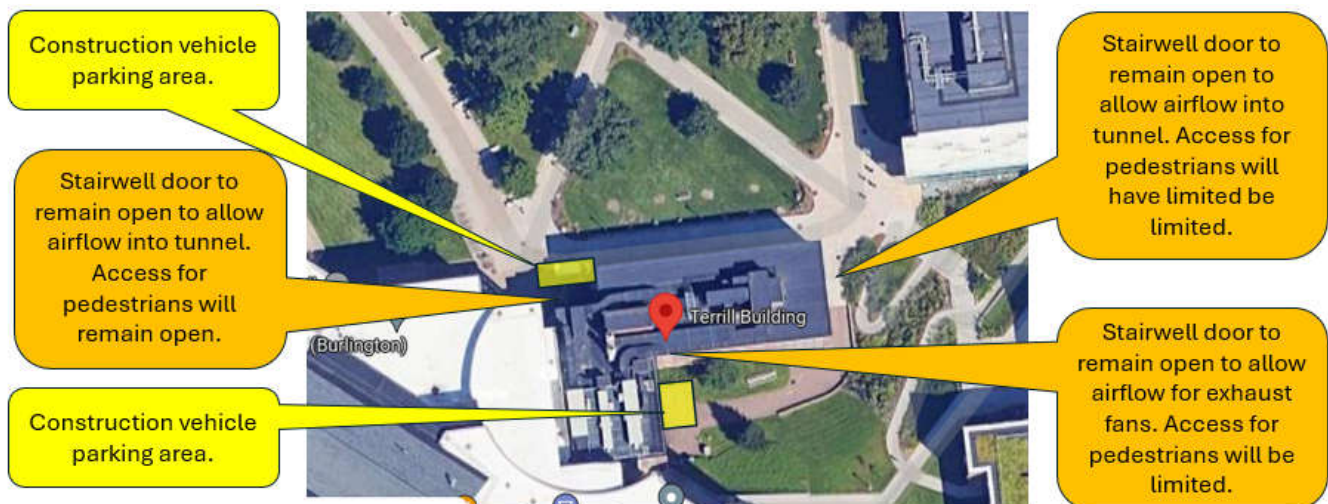

Duration of Work: Monday through Friday

Start of Work: 07/21/2025

Completion Date: 09/26/2026

What to Expect:

Cooper Mechanical will be working in the Terrill Building steam tunnel. Fans will be used to remove welding smoke and odors from the work area. Expect localized construction noise and smells during this work. The contractor will manage the noise and odors to the greatest extent possible. See access areas below and fan locations below. Locations are subject to change based on project conditions.
