

How to find reviewer notes in a protocol:

1. Message icons in the index of pages on the left side of the screen will show which sections have reviewer notes included.
2. Click the message icon within the protocol section to read the notes.
3. Comments that require a typed response in the notes window will have a red dot above the yellow message icon.
4. Requested changes can be made directly to the protocol.
5. Once finished addressing all comments, please click “submit response” on the main protocol page.

The screenshot shows the UVMClick interface for a protocol. On the left is a sidebar with a list of sections: Basic Information & Funding, Basic Information, Protocol Team Members, Funding Sources, Experimental Design, Scientific Aims, Experiment, Procedure, Personnel, Assignment, and Strains. The 'Basic Information' section is highlighted in orange and has a yellow message icon with a red dot above it. A red arrow points from this icon to a text box that says: "The message icon here indicates a comment has been added to this section".

The main content area is titled 'Basic Information' and contains three numbered steps:

1. * Select research team: ? [message icon] Hull Research Team
2. * Select admin office: ? [message icon] IACUC
3. * Title of protocol: [message icon with red dot] Adopting a new culling strategy to reduce Johne's disease and improve economic sustainability on dairy farms

 A red arrow points from the message icon in step 3 to a text box that says: "Click the message icon to view the comments or requested modifications".

Below step 3, there is a section for 'Short title:' followed by a text input field. A red arrow points from the message icon with a red dot to a text box that says: "The red dot above the icon means a written response in the comment box is required".

At the bottom of the main content area, there is a section for 'provide a concise non-technical description of the objectives of the research project:' followed by a text input field. A red arrow points from the message icon with a red dot to this section.
