

New Online Course!

Production Livestock Grazing for Technical Assistance Providers

The goal of this course is to provide education and resources for new technical service providers with foundational information around grazing planning and providing grazing-related technical assistance to production livestock farmers in Vermont. This course is brought to you by the University of Vermont Extension.

Gain Knowledge and Skills in:

- History of grazing, livestock, and agriculture in Vermont
- Best practices for technical assistance providers
- Soil health in pasture systems
- Pasture plant types
- Helping a farmer meet their goals
- The Vermont Grazing Plan template and other helpful tools
- Infrastructure and design considerations for successful grazing systems
- Record keeping tools and how to use them

**Learn from Extension research
specialists and industry professionals.**
