Floyd Campbell For SGA Senate!

Aspiring Educator & Public Servant
"Involvement Sparks Action"

Why I'm Running

I'm deeply passionate about serving others by bettering the lives of those around me and student government unites my interests in education and public service. Being a Senator would enable me to have a platform for uplifting my fellow students voices so together we can improve the quality of life and experience at UVM for everyone. I hope to earn your vote through a promise that I will work every day to serve the students of our university, include those feeling left out, and make an impact.

Contact Info

Genuinely feel free to connect with me anytime to share ideas, collaborate, or discuss anything, your voice matters and I'd be happy to talk!

Relative Experience

My high school focused on educational innovation and I have a wide variety of experience in education and leadership.
- Student Senate President - Senior Year
- Principal's Assistant - Senior Year (One Month Internship)
- Assistant Teacher - Junior Year (One Month Internship)
- Education Transformers Club Leader - Senior Year
- Government & Politics Club Leader - Junior & Senior Year

About Me

- Major: Secondary Education: Social Studies - Political Science
- Learning Community: Leadership & Social Change
- Hometown: San Diego, California
- Future Careers: Local High School Or College Level Educator, Vermont State Legislature Member
- Interests: Figure Skating, Skiing, Philosophy, History, Horror Movies, Video Games, All Social Sciences

Senate Projects

- Housing: Install air conditioning in all halls, end forced triples, improve wifi connections, stock health focused vending machines with real food, better furnish and fill common spaces

- Dining: Expand operating hours, fix cat cards not opening doors, make food choice polls and feedback surveys

- Bikes: Supply enough rentals for all requests, build more racks, grow the sharing system

- Clubs: Conduct interests surveys for potential clubs, host a new clubs fair, update the directory with only active clubs

- Community: Encourage city council meeting attendance, organize graffiti cleanups, run more food drives

- Outreach: Promote student attendance at SGA meetings, hold monthly town halls with President Tromp, encourage students to submit proposal petitions, build a student idea wall in the Galaxy Space, place mini mailboxes for student opinions and ideas in common spaces, allow for all students to be able to participate in student government affairs in a greater capacity and implement their ideas through their own projects

- Awareness: Post weekly after-meeting updates, upload meeting clip highlights, conduct Instagram polls and QnA's, send a monthly news email, record senator introduction videos, run a bi-weekly podcast with guests, develop a fresh website listing senator bios, project updates, idea submissions, participation opportunities, and event information

- Academics: Create more life-skills activities on finance, career, and health, work with students to increase classroom student voice, allow pitches for new class ideas, expand independent project-based-learning opportunities, develop new Learning Communities based on student interests data
