

# SENA CHIN

## For SGA Senator

My name is Sena Chin and I am majoring in Human Development and Family Sciences at UVM! I am running for a First-Year Senate position because my life has been built around two morals—connection and community. Serving on UVM's Student Government Association would not only allow me to advocate and strengthen my community, but would build endless opportunities for connection and belonging.

I have always been known for being a vibrant, outgoing, and extroverted person. Everywhere I go, I make endless efforts to develop new connections, create inclusive and exciting places for people, and take initiative to stand up for what I know is right. In high school, I spent countless hours working to improve my community all four years—from student government, working in special education, and leading as club president to drive daily change for underrepresented students. I committed myself to leadership and initiative, and in return the greatest gift; seeing the difference I could make in people's lives.

At UVM, I am carrying those values forward. As your First-Year Senator, I will work to create a unified class where belonging is the norm. Community won't just be our goal—it will be my guarantee to you. If you want a senator who will listen and lead with energy, vote for Sena on September 8<sup>th</sup>!
