UVM Cancer Center Summer Research Fellowship

For Funded Graduate Students

Graduate students currently supported by a 12-month stipend may be eligible to participate in additional paid research work of up to 20 hours per week during the summer, provided they meet the eligibility criteria listed below.

This fellowship is intended to supplement, not replace, a student's existing funding. Recipients will receive additional compensation administered directly by the UVM Cancer Center.

Eligibility Requirements

Eligibility will be determined by the Graduate College. To qualify for participation, students must:

- Have a 3.0 GPA
- Have no M's or Administrative F's, U's or UP's on their transcript
- Have no grades of F, U, or UP in coursework, research, or continuous registration
- Demonstrate satisfactory academic progress (e.g., meeting program milestones such as completion of the Comprehensive Exam within the required timeframe, typically within the first three years)

- **International Student Eligibility**: International students are eligible to participate in summer employment under this fellowship program

- **Compensation** All appointments must adhere to the Student Employee Compensation Guidelines (subject to change for 2027).

- **Fellowship Duration and Payment:** Students may choose to participate in the standard 8-week fellowship period or extend their appointment to 9 weeks to receive additional compensation. Please see below for pay rates and total compensation amounts.

- **Current Pay Rate (subject to change for 2027):** $22.43
  - 20 hours/week x $22.43 = $448.60/week
  - 8 weeks: $448.60 x 8 = $3,588.80
  - 9 weeks: $448.60 x 9 = $4,037.40
