Join us to connect and learn about:

- Regional Perinatal Public Health Data
- Basics of Maternal Health Innovation (MHI) Regional Grant
- Brainstorm Ideas on How to Invest MHI Funds in Your Regions

Registration is necessary to attend the session: <https://redcap.link/f16ll0xz>

Virtual via Zoom or in person at Holton Hall, Winston Prouty Campus, 130 Austine Drive, Brattleboro

Regional Perinatal Quality Collaborative (RPQC) | A state investment in a regional partnership model approach that recognizes the importance of engaging local leaders from both community and clinical settings to improve perinatal health outcomes in communities.

RPQCs are anchored in the Maternal Health Innovation Goals and Efforts in Vermont:

- Reduce maternal mortality and severe maternal morbidity (SMM)
- Sustainable improvements in maternal health service delivery, data collection and policy development
