

Tri-State Dairy Exchange:

Advancing Dairy Systems Through Technology

2026 Monthly Webinar Series

Join the team of Dairy Extension Professionals from UMaine, UNH, and UVM for live monthly webinars on the last Wednesday of each month from 11:30 a.m. - 12:30 p.m about innovative technology in the dairy sector, Extension and industry research, and programs happening in the tri-state region. In 2026, webinars will focus on a different topic each quarter. **In April, May, and June, webinars will focus on precision agriculture technology and systems that support decision making from the field to the barn.**

Integrated Farming Solutions with Dairy One, Inc.

Wednesday, April 29, 2026
11:30 a.m. - 12:30 p.m.

Dairy One, Inc. provides an integrated suite of laboratory, data, and technology services designed to empower dairy and livestock producers with the information and tools needed to support decision making. From soil and forage analysis to milk testing, herd management software, and agronomic consulting, learn how their team uses data-driven tools and systems to help farms enhance productivity, animal health, and operational efficiency. **Presenters will speak to systems that work from the barn to the field and that address lameness, feed management, and crop management.**

Guest Speakers:

Matt Newman is the Director of Integrated Farming Solutions at Dairy One. In this role, he enjoys providing technology solutions to dairy producers which allows them to focus on what they enjoy. Matt understands the complex needs and pace of dairy production having worked in the industry for his entire career. He is eager to share his experiences and work on constant improvement. Matt is a 1999 graduate of Cornell University after attending SUNY Morrisville. He currently lives in northeastern Pennsylvania with his wife, six children, and four Jersey cows.

Dr. Ben Weikert has been serving as Director of the Agricultural Consulting Services (ACS) at Dairy One since December 2025. Previously, he held the position of Professor and Department Chair of Animal and Natural Science at SUNY Cobleskill. Ben has over 15 years of livestock farming and consulting experience, where he has been able to understand daily farm challenges while working with agricultural stakeholders throughout the country. Ben holds a Ph.D. in Agricultural Leadership from the University of Missouri.

Upcoming Webinars in This Series:

Next-Level Crop & Nutrient Management with Track Tracker
 Pro's Tracking & Automation Solutions
 Wednesday, May 27, 11:30 a.m. - 12:30 p.m.
