RESEARCH and QUALITY IMPROVEMENT EXPERIENCE

November 2025 – present **Collaborative Action Network: Diabetes Optimization (CAN-DO)**

Multisite, grant-funded quality improvement initiative to improve the care of people with diabetes and overweight or obesity through a pharmacist-led intervention.

Funding for 2026

March 2024 – present **Collaborative Hypertension Improvement Project (CHIP)**

Interprofessional quality improvement project to utilizing telehealth tools to increase the percentage of patients meeting the NCQA metric for hypertension control. Grant funded through the Family Medicine Scholarship Funding beginning 2/1/2025

May 2021 – March 2022 **Comprehensive Medication Management in Older Persons**

Interprofessional quality improvement initiative at the clinic level to reduce inappropriate prescribing in older persons, focusing on anticholinergic medications, aspirin for primary prevention, and sedative hypnotics.

January 2021 – July 2021 **RESPIP Diabetes Care Quality Improvement**

Interprofessional working group in the Department of Family Medicine to improve metrics of care for patients with diabetes.

June 2020 – January 2021 **Medication Reconciliation and Refill Request Process Improvement**

Interprofessional working group for all primary care affiliated with University of Vermont Medical Center to improve operational efficiency as well as accuracy of medication lists.

September 2019 – March 2020 **Prescriber perceptions of metformin use for prediabetes**

Electronic survey designed to evaluate perceptions held by primary care providers of the use of metformin for the prevention or delay of type 2 diabetes mellitus. Presented poster at APhA Annual Meeting and Exhibition March 2020

September 2019 – March 2022 **Predictors of metformin prescribing for prediabetes – NAMCS analysis**

Analysis of predictors of metformin use for prevention or delay of type 2 diabetes mellitus using the NHANES database. Presented poster at APhA Annual Meeting and Exhibition March 2021

September 2018 – March 2019 **Pre-intervention analysis of metformin for prediabetes**

Medication use evaluation performed as a pre-intervention assessment of planned interventions around increasing appropriate metformin use for prevention or delay of T2DM.
Presented poster at APhA Annual Meeting and Exhibition March 2019

January 2017 – June 2018 **Efficacy of iron supplementation in patients with left ventricular assist devices**
Mentor: Ian Hollis, PharmD, BCPS (AQ-Cardiology)

Prospective, observational study assessing the efficacy of intravenous and oral iron products to correct iron deficiency in patients with heart failure supported with left ventricular assist devices.
Responsibilities include study design, IRB submission, study coordination, data collection, data analysis, manuscript authorship and submission.
Presented at the American College of Cardiology Annual Meeting in Orlando, FL March 2018

July 2016 – May 2017 **Medication use evaluation of proton pump inhibitor use at UNC Hospitals**
Mentor: Stacy Campbell-Bright, PharmD, BCPS, BCCCP

Medication use evaluation performed as a pre-intervention assessment of PPI prescribing guideline implementation as a part of system-wide *Clostridium difficile* infection prevention measures
Responsibilities included: IRB submission, data collection, analysis, abstract and manuscript authorship, hospital guideline update, poster and platform presentation.
Presented at the Research and Practice Symposium May 2017 (Podium) and ASHP Midyear Clinical Meeting Resident Poster Session December 2016

April 2015 – March 2016 **Evaluation of the safety of peripherally infused hypertonic saline**
Mentor: Morgan Jones, PharmD, BCPS, BCCCP

Retrospective, multi-center study evaluating the safety of peripherally infused sodium chloride 3%.
Responsibilities included data collection, abstract and manuscript review.

January 2015

Evaluation of protocol-based treatment regimens for neonatal abstinence syndrome

Mentor: Jasmine Sahni, PharmD

Survey of published and solicited protocol-based treatment regimens for neonatal abstinence syndrome

Responsibilities included design, data collection, analysis, and internal presentation.

Presented at ASHP Midyear Clinical Meeting Student Poster Session December 2015
