

Vermont Academic Detailing Program

What is Academic Detailing?

- One-hour interactive sessions geared to practitioners who prescribe medications
- The latest evidence-based prescriber support and education for managing common but challenging primary care conditions
- One FREE hour of CME is offered for each session
- An objective, unbiased overview of what the evidence from studies shows about various drugs, and non-drug therapies used to treat a medical condition

2026-2027 Session Topics

Management of Heart Failure

Management of Migraines

Updates in Infectious Disease: HIV PrEP

Updates in Infectious Disease: Hepatitis C

Management of Obesity

Management of Opioids in Primary Care

(Controlled substance credit)

Management of Fibromyalgia

(Controlled substance credit)

Management of Type 2 Diabetes

Sign Up Genius for Virtual Sessions

You can easily sign up for virtual academic detailing sessions at www.signupgenius.com/go/vtad

This is a convenient way to stay up-to-date and catch up on sessions you missed. The virtual sessions are the same format as our in-person sessions.

A virtual session is one-to-one with an academic detailer. The academic detailer will tailor the session to your needs, interest, and time frame.

Each session comes with CME and you choose the topic from our academic detailing menu.

No advanced preparation is required.

For more information or to schedule a session:
