

Vote for me?

- I Stand for fun, whimsy, joy and happiness
- I genuinely care and want to help
- I am committed to this community
- I stand for the environment and sustainability

Madic
Andreoli

Hello! My name is Madic Andreoli and I am a UVM freshman and a Plant biology major. I am running for a position on the senate. I believe in preserving our natural world and therefore will work to increase our school's sustainability. I haven't been here long so I can't say I know a lot about this campus and its issues yet but I look forward to trying everything myself and finding where our school needs improvement as well as consulting YOU, yes you if I get elected feel free to come to me with your concerns from your experiences and I'll listen.

Please do!
