About me:

I am Zackery Legendre, a first year CEMS student from Maine running for SGA Senate. I am very passionate about engineering and design, like to take walks outside, and play video games.

Student leadership interests me because it offers the opportunity to help implement the initiatives and ideas of the student body at UVM.

My priorities include:

- Working closely with the community to advocate for changes students actually want to see on campus.**
- Working in tandem with organizations like VPI to bring undergraduate research to the attention of legislators and help facilitate the translation of well-conducted studies into policy.**
- To be someone that students feel comfortable approaching with ideas, concerns, and aspirations.**
- To be a senator trusted to get things done.**
