

Alumni

NEWSLETTER

Greetings Public Health alumni! Welcome to the Fall, 2026 edition of the alumni newsletter.

Program Updates:

UVM Welcomes the first Doctor of Public Health cohort!

We are delighted to welcome the inaugural cohort of 25 students to our new Doctor of Public Health (DrPH) program. This talented and diverse group represents 15 different geographic locations, bringing a wide range of perspectives and experiences to the classroom. We are especially proud that seven members of the cohort are alumni of UVM's public health programs, continuing their academic and professional journeys with us. Together, these students embody the leadership, passion, and commitment to improving population health that are at the heart of the DrPH program.

Interested in giving time back to the program?

Have great feedback? Let me know:

Public Health Grand Rounds

Fall sessions:

October 8: Homelessness and Infectious Disease

October 26: One Health

November 11: Tick-borne diseases

Stay tuned for Ms Teams invites!

More good news: CEPH Reaccreditation!

Early in 2026, we submitted our reaccreditation report to The Council on the Education for Public Health. Many alumni helped in this endeavor. We are happy to report that not only did we receive a 7 year reaccreditation, but the program also received a perfect score on it's site visit and report! Thank you to all who contributed to this accomplishment!

Alumni Spotlight: Han Nuang Tun, MBBS, MD, MPH, DMSc

Han Nuang Tun is a Program Specialist for the MD Student Research Program at the Geisel School of Medicine at Dartmouth. He completed his MPH at UVM in 2023 and credits the program with shaping his clinical interests which include preventative cardiology and the intersection of cardiovascular disease and broader public health challenges. Dr. Tun recently published a paper on the heart-liver-pancreas axis in heart failure with preserved ejection fraction (HFpEF).
