Environmental Studies Major
Environmentally-Related Breadth Requirements
for ENVS 151 Students ONLY

The ENVS major consists of three core courses, a senior capstone, and a topical concentration. Among the courses required for the major are four breadth area courses which develop understanding of different approaches to environmental problem solving. It is helpful if your choice of courses for the breadth requirements align with your concentration focus.

**ENVS Courses**
*These courses have been approved by the ENVS faculty to fulfill the environmentally-related breadth requirements for the major.*

**Natural Science (NS) (courses with field component strongly encouraged)**

**Others** — Depending on the topic, these may also fulfill the requirements; please consult your advisor.

ENVS 195/295 Other Special Topics courses ENVS 1XX/2XX Study Abroad / Transfer courses

**Note:** ENVS 191/291/284 are not actual courses and cannot be used to meet these breadth requirements.
**Non-ENVS courses**

These courses are suggested as potentially appropriate for fulfilling the environmentally-related breadth requirements for the major. As much as possible, your choice of courses should reflect the focus of your overall concentration within the individually-designed portion of your ENVS major. Consult your advisor to consider which of these courses may be most appropriate for you.
