ENVS 191/291 Environmental Practicum Grade Report

Instructions:
The ENVS 191/291 student and Practicum Supervisor should, together, review the student’s Learning Objectives and Project Goals, as specified in the student’s ENVS 191/291 Project Plan, and then discuss the level of achievement of these objectives and goals. The Practicum Supervisor then writes comments and designates a grade below. The Practicum Supervisor’s grade and comments provide an important contribution in determining the final 191/291 grade, to be designated by the student’s Faculty Sponsor.
