# Microwave (?) Relay Tower at NW end of Bellefayre Mtn.

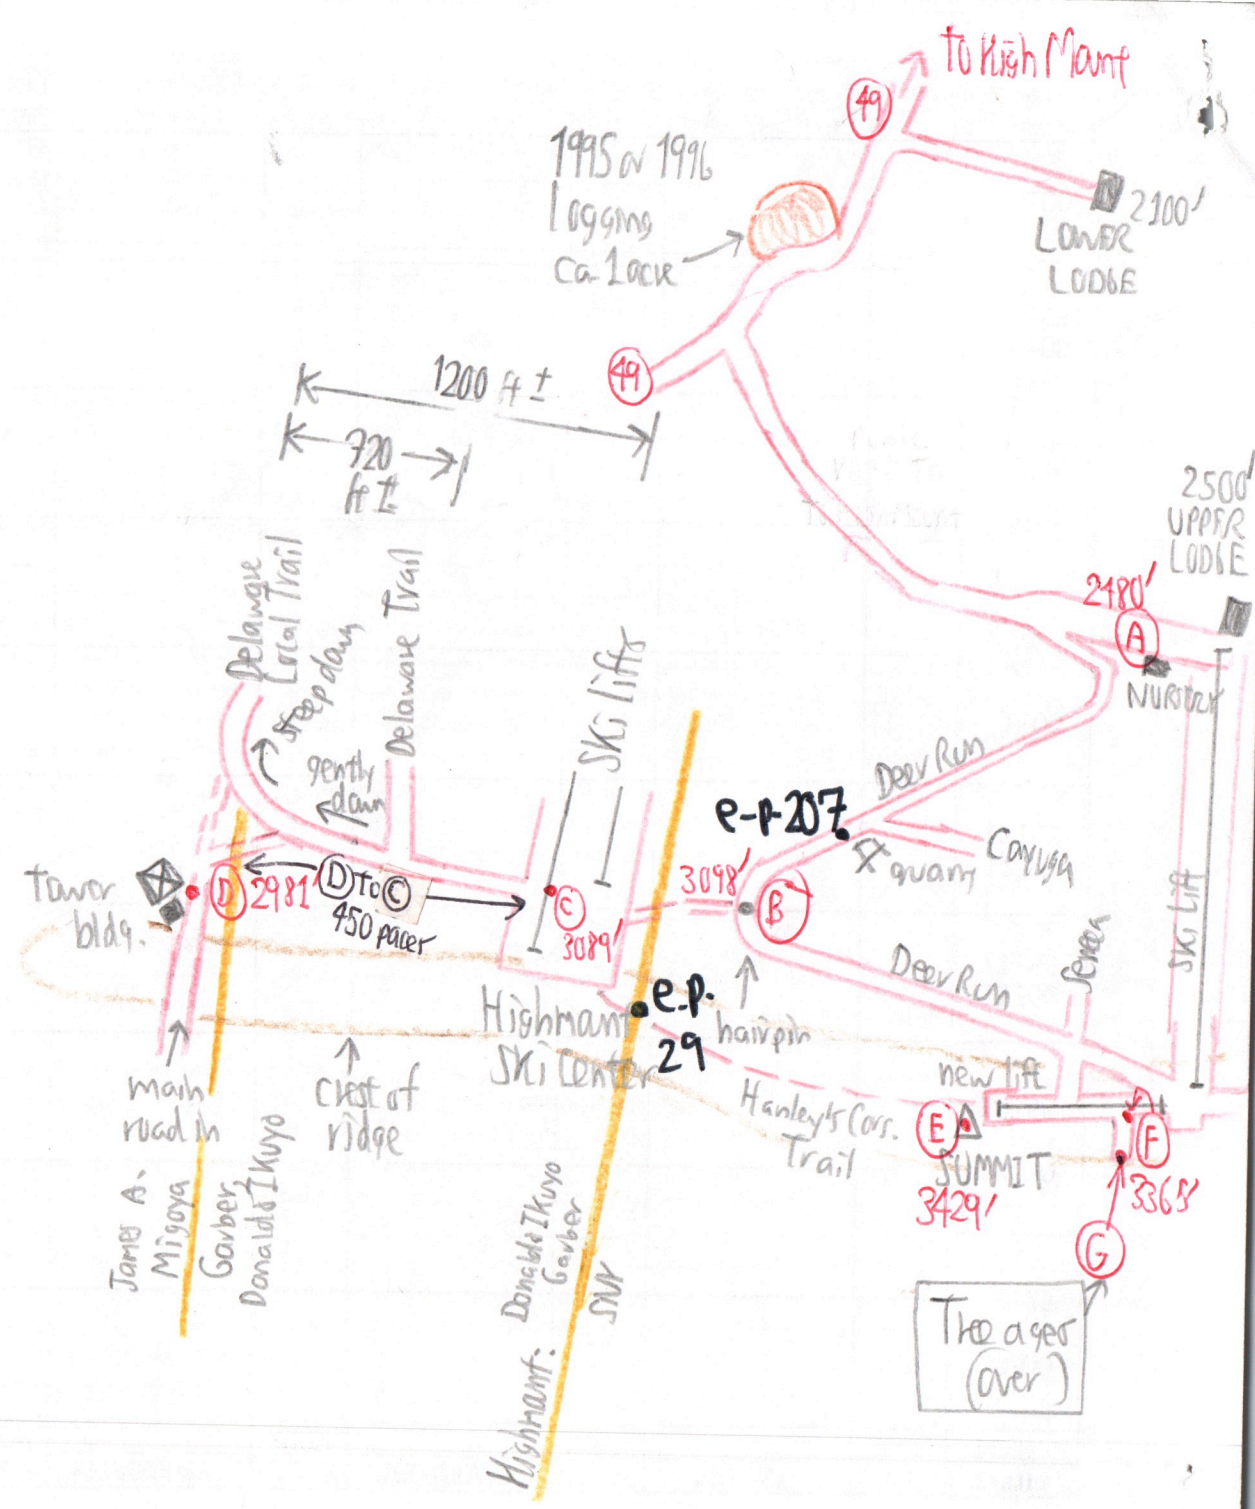

9/15/96

The tower <sup>(D)</sup> is 450 MK paces, about 1200 ft., NW of the westerly of the Highmant Ski Lifts <sup>(C)</sup>. The Delaware Ski Trail is 270 paces from <sup>(D)</sup> or about 384 feet.

The tower top is considerably higher than <sup>(C)</sup>, making it close to 200 ft. There are 50 or 60' high at tower site

The tower was 1st noted by MK in May 1996. It was not notified in May-June 1995.

$$R = \frac{\Delta p}{\Delta e} = \frac{29.08'' - 28.02''}{3429 - 2480} = \frac{1.060''}{949'} \approx 0.895$$

(G) is about 15 to 20 ft lower than (E), or about 3350 ft. It was used to dump balders, logs + stumps from the construction of the new, 1995, lift (E)(F).

One YB stump, <sup>cut</sup> 2 ft above the ground level and <sup>just</sup> beginning to plate-out, was 100 to 105 years old and 15" diameter.

One BC stump, cut at 4 ft above ground level, was 77 years old and 13" in diameter.
