V gentle slope fence	29.04	0.20	184	2804		
A Cross Mtn Rd.	29.24	0.00	—	—	2620	5:58

Use one r because pressure did not change at Cross Mtn Rd. from beginning of hike to end.

$$\frac{3180 - 2620}{29.24'' - 28.63''} = \frac{560'}{0.61''} = 0.918$$

### Additions-

- W log road 29.09 2758'
- X OST 29.16 2693'
- PP Manatee Rock 28.66 3152'  
border with a whale-like face on SE end, about 6' high.

# TREES

(B) big 16" ± OST  
ASH  
LAP-OSMO-ONCILEA-  
EUP-ATHIELYP

(D) Stumps about 20 yrs.

(E) BC dom. Stumps  
about 30 yrs.  
Ridge growth.

(G) Interrupted + DP  
fem glade, sunny.

(I) BC dom, <sup>to 78"</sup> on west side,  
B dom on east.

Two 24" YB, the  
rest smaller  
Several SUB to 8"

(L) Old log road on S  
shoulder of 3180'  
second summit, few  
stumps. Area very  
lightly logged in 1970s.

(O) 2nd Summit  
Only 1 stump seen.  
BC to 20" x 60' dom  
SUB to 12"  
B, MO

YB & PM in wet  
area on N shoulder

(P) Few stumps

(PP) 2 BC stumps  
Seen on NE shoulder  
(Continued) →

12" YB grannies  
on top of a "pancake"  
the old log still  
present. Not cut  
by people.

(PP) boulder  
resembles a  
manatee face.

(S) Big stump  
among ledges  
MM, 1 SUB to 24"

(V) SUB terrace  
gentle sloping

# GROUND

(D) OXJLL

(E) OX, \$CAMPYL, DP

(H) CINN glade-  
MF-UVUL,  
little SPHAGNUM

(I) OX - \$Campyl.

(T)

(O) OX - \$CAMPYL.  
Wet area 10' down  
on N dom by Corianda  
clayt. + Scirpus, G.  
NO Sphagnum.

(Q) Sphagnum small  
flat.
