(A) Along Alder Lake -
2200' Rhodo rubrum, VCASS,
Vdent; Podemomom &
Sax pen with Caltha
in flower at two brooks.

(B) bushwhack begins 2310'

(C) Giant PIN cherry, 1m,
2503' 17" x 65' to 70' tall.
9" dead PIN for several
years, broken 2ft above
ground, was 36y when it died.

ASH in here are estimated
to be 40 to 50 y old.

There are TWO stump
age classes:

- ① Recent 1979± just
prior to Narrav County
Boy Scouts sale to SNK
- ② Older, maybe 1950s,
which set off the PIN
& ASH.

(D) TASP 10" 2562'

(E) Bigtooth? 1950s stump
only. Leave log road
temporarily as it
descends

45' (F) 1979± stump. Last ASH
but from 1950s cut. 2815'

(H) Road crosses ridge crest
& descends to COL to NW
1979 cutting 2925'

(I) 3001' ledge for BC dom.

(J) 3035 Upper log road

(K) 3068 June-log roads

(L) 3068 follow log road on
contour to SE & E to
where it ends at (M)

(M) 3077' on top of a low
ledge.

(N) 3136 stump from ± 1979

(O) 3178 last stump. at base
e-p. #10 of 20ft
ledge.

(P) 3220 Summit boulder
BC dom
B&YB scat. MO
S&RB, several
RM sapling
ERY, MCIOX

(Q) 3120 Col. same veg as
Summit except 2 SUB
just above on E side

(R) 3260 Summit. Barometer
says USGS is in error.
This summit is SAME
elev. as the westerly
3220'. BC dom, 2 SUB
B subdom.

(S) 3079 Scattered big SUB,
YB, BC to ± 26"

(T) 2952 Top of steep
pitch. AMEL, YB, S&MB

(U) 2868' Base of talus.
22" Beech live & healthy.
22" BC, 26" SUB
(all estimates) but scat.

(V) 2718? boulder field

(W) 2692' Join trail

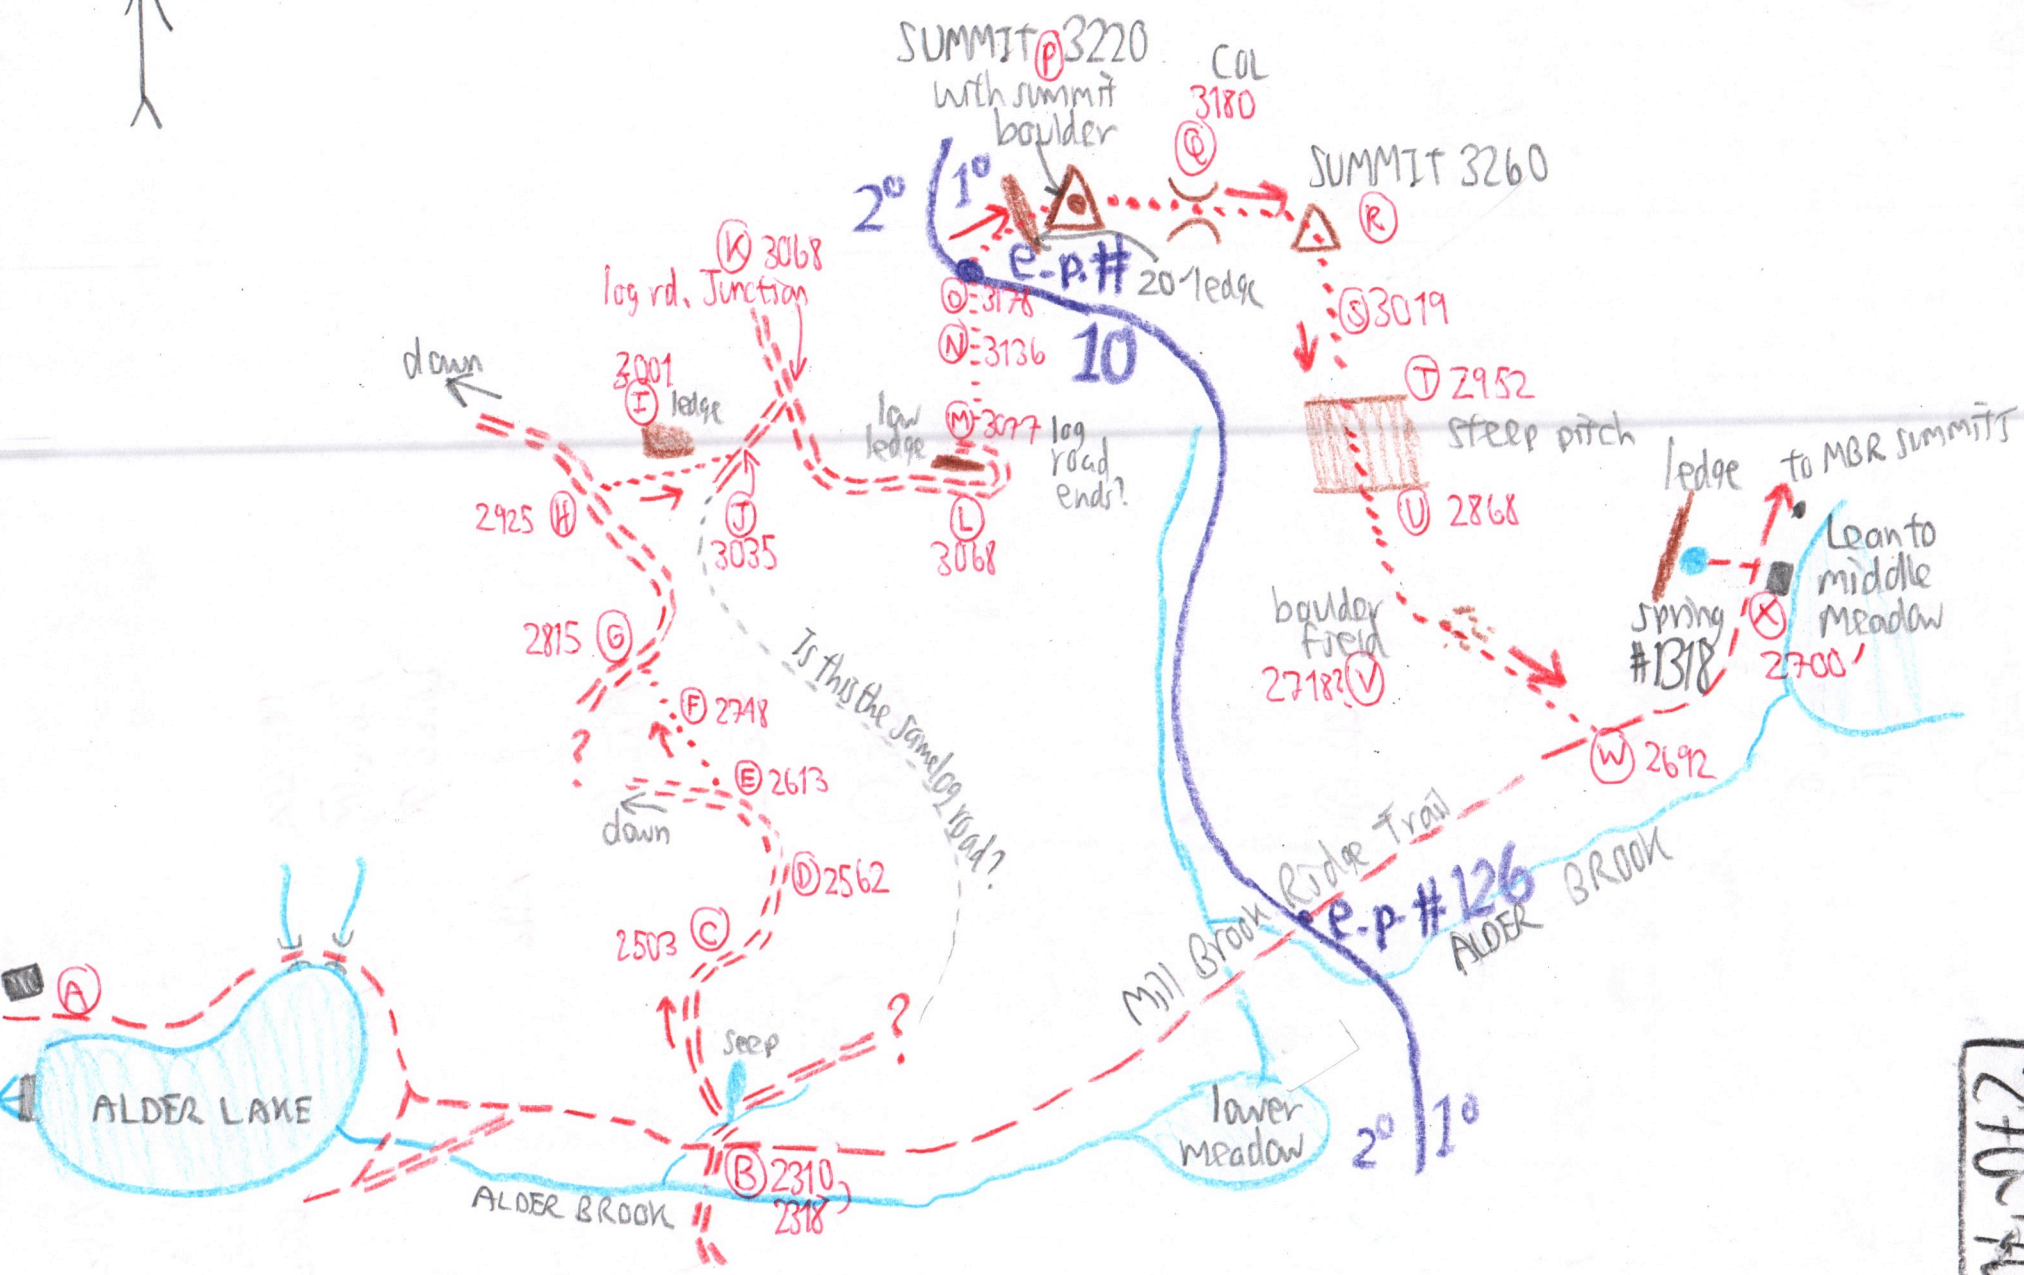

(X) 2700 Beaver Meadow
Lead to.

Note:

270-69

The S spur of Summit
3260 from (R) to (W),
is NOT a continuation
of the grave of huge
SUB & YB at (X). There
are scattered large trees
on the spur, but nothing
impressive (see (S) + (U)) or
abundant.

Bushwhacking down into Col, Summit 3260 is NOT visible, but Summit 3480 is, blocking B.L. Mtn.

270-70
