

Potential alluvial veg. explanation along DURR

10/7/06

454-1

(continued over)

Shrub thickets.
Do willows in April

(30) marsh island

Cater? Hill
(1st of four)

Cold Spring Rd.

stone wall

foot bridge

residence + lawns

OLD RIVER RD.
good access

Lake

HALCOTTVILLE STA.

(30)

private residence

Good access
(green area)

transfer station

examine this road

Hubbell's

Kelly Conv. Sta.

Batana Hill Rd

(36)

50

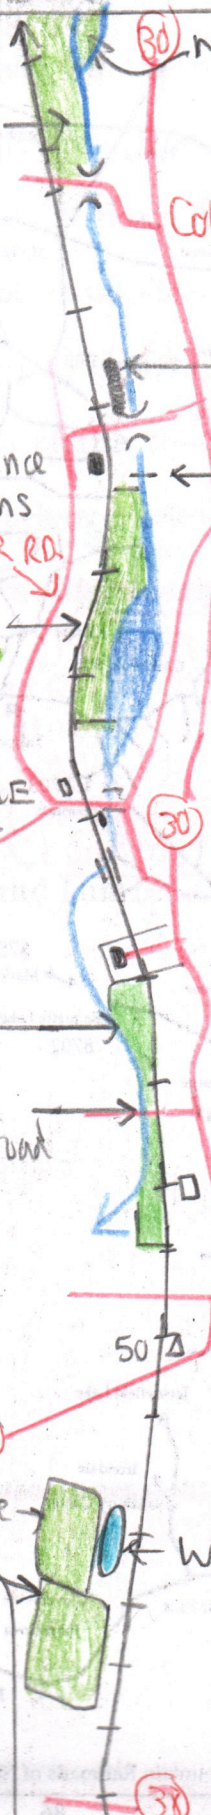

N half of golf course

Willow Swamp

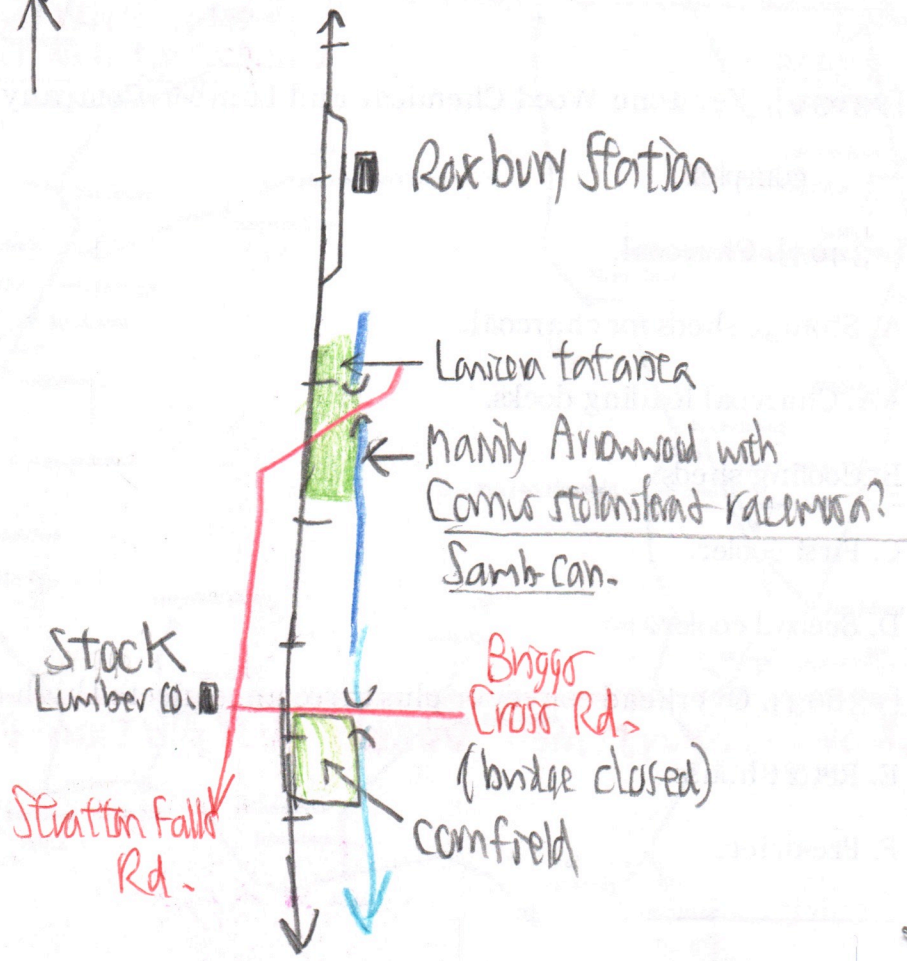

southern 1/2 of golf course has destroyed flood plain veg. Rd runs above a steep till bank. The golf course has done what the Repactan Reservoir did: interrupt alluvial spp. migrations

(38)

to Arkville
