

Bearpen Mtn. to revisit Bag #314 for dissolved O₂

11/9/09

407-26

caution: this junc. is obscure. Mark it for descent.

At (F), someone jokingly nailed a sign on a SUV = "No standing anytime"

(X) 8' till cut. No ledge

Landing at 2590' is not noticeable.

Timetable
(no barometer carried)

Correlation with previous hikes, page #

407-27

Vegetation

- (E) 'cake with 24" of till. No ledge
- (I) Head path heading NW apparently turns 45° to N and enters obscure old skid rd. Dashed TB branches mark the bend.
- (Q) Much red silt in puddles on road. ∴ much red shale high up on Bearpen. Unusual in E Catskills to have this much shale this high. Shale not exposed on Bearpen (or is some at ski lift terminals?)
Ridgecrest from G up heavily damaged by 4/15/07 ice storm. Much damaged BC & B limbs + RA thickets. Bushwhacking is difficult. Bog no longer easily visible from road. Few SUBS at Q.
- (R) 1985 Clearcut is now a thicket 20' tall, mainly PB 2" to 6" dbh with some B & BC.
The ski slope down lines up directly with _____ Road.
- \$campyl from summit to G abun—
SAME AREA AFFECTED MOST BY ICESTORM!!
- (F) Both \$ spp. + DP on a SUB-BC dom terrace. Canopy 50 to 55' with less ice damage
- (E) No \$ campyl.
- (R) 5' till cut. NO ledge.
- (S) No campyl\$. PA&TAR below indicate wetter soil. Till cuts > 5'.
- (B) 50 to 60' BC dom m.col. Some PB-SUB-MO
- (U) ASH, 1 PB, BIGTORN, 1 OAK.
- (W) 2nd OAK & 2nd PB.

* After lunch bog terrace, head N to map ski slopes from 1:22 to 1:44
