Town Line 3.0 miles

Distance Tray Mill to Town Line

In Beers = 3 3/4 but river not shown this far up = 3.0 miles

in 1899 map = 3.0 miles

\* Lot 46 today, NW edge, is in twin bridges - Deer Shanty area. Hombeck's on S side of river maybe downstream from twin bridges not? explored on 5/5/18.

If Burroughs' Chimney & bldgs were <sup>a full</sup> 2 miles above Hombeck's then 1 mile above Donovan's & almost to Town Line on Lot 72.
