VERMONT FOREST INDICATORS DASHBOARD

Combining dozens of key datasets into a snapshot of the overall status of Vermont's forests

STRUCTURE

The size, density, diversity and arrangement of trees in the forest, and the pattern of that forest on the landscape.

3.5/5

CONDITION

The overall health of the trees within the forest and the lushness of the forest canopy across the landscape.

3.5/5

2019

OVERALL SCORE

3.7/5

Score is trending flat over time

STRESSORS

Stress agents acting on our forests, impacting growth, regeneration, and survivorship.

3.7/5

SERVICES

The many economic, social, ecological, and aesthetic services forests provide.

4.2/5

Score Trends

Upward Trend | Flat Trend | Downward Trend

The color of the score denotes the long-term trend
