1. All FAHC clinicians with a “P number” (or M number, etc.) should have access to the UVM College of Medicine COMET website. Your username is your P number and your password is the same as you use with your P number. If you can’t seem to log in to COMET, contact your department administrator, who if need be, can contact the COMIS help desk at 656-7300. You do not need access to any particular course in COMET – you will be adding yourself to an organization.

2. COMET is located at https://comet.med.uvm.edu. The “s” after “http” is necessary. Log in.

3. Click on the “Lounge” tab.

4. In the “Organization Search” box on the left, type “geriatric ed” and hit enter.

5. The “Geriatric Education Modules” organization should be listed in the search results. Click the “Enroll” button to the right.

6. Click “Submit” on the Self Enrollment confirmation screen.
7. Click “OK” on the next screen.
8. Once you are in the Geriatric Education Modules organization, click the “View Modules” green button to begin.
9. You only have to enroll once. The next time you log in to COMET, a link to the Geriatric Education Modules should be on your home screen. If not, click on the Lounge tab and you’ll see it there.
