THE STORYTELLERS

Super Survival of the Stories:

The Desirability of Storytellers, The Atlantic, Ed Yong, 2017-12-05.

- Study of Agta, Filipino hunter-gatherers.
- Storytelling valued well above all other skills including hunting.
- Stories encode prosocial norms such as cooperation.
- Like the best stories, the best storytellers reproduce more successfully.

Major competing storytelling entities:

- News.
- Books, magazines.
- Art.
- Music industry.
- Television, movie studios, Netflix, HBO, Disney.
- Social media: Facebook, Instagram, Snapchat, ...
- All sport.
- Video games.
- Religions, ideologies, belief systems, Freemasons, ...
- Enduring coherent groups: Cultures, countries, cities, ...

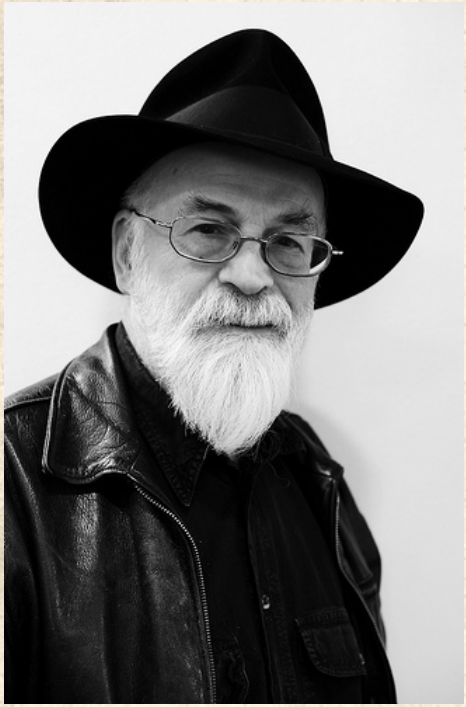
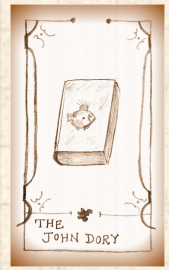
(Sir Terry) Pratchett's Narrativium:

Storytellers
Stories
Power
Taxonomy
Essence
Memory & Turbulence
Emotional Arcs
Moving ahead
References



- "The most common element on the disc, although not included in the list of the standard five: earth, fire, air, water and surprise. It ensures that everything runs properly as a story."
- "A little narrativium goes a long way: the simpler the story, the better you understand it. Storytelling is the opposite of reductionism: 26 letters and some rules of grammar are no story at all."



- "Heroes only win when outnumbered, and things which have a one-in-a-million chance of succeeding often do so."

The Comet Ping Pong Gunman Answers Our Reporter's Questions:

- "According to court documents, Mr. Welch said he had come armed to help rescue the children."
- " ''The intel on this wasn't 100 percent,'' he said."
- He said he did not believe in conspiracy theories, but then added that the Sept. 11, 2001, attacks needed to be re-examined. He has listened to Alex Jones, whose radio show traffics in conspiracy theories and who once said that Mrs. Clinton ''has personally murdered and chopped up'' children. ''He's a bit eccentric,'' Mr. Welch said. ''He touches on some issues that are viable but goes off the deep end on some things.'' "

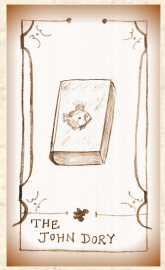
The story trap by Philip Ball, 2015-11-12

- "We use neat stories to explain everything from sports matches to symphonies. Is it time to leave the nursery of the mind?"
- "...we might wonder if the ultimate intelligibility of the universe will be determined not so much by the capacity of our minds to formulate the appropriate concepts and equations, but by whether we can find a meaningful story to tell about it."



Competitive Punning, The Economist, 2017-08-12:

The quip and the dread

Why English is such a great language for puns

Gamers now even take part in world champunships

- Punster pseudonym: "Punder Enlightening"

Being funny, a grand challenge for AI:

- Wired (2014-04-01): It's Comedian vs. Computer in a Battle for Humor Supremacy. Myq Kaplan pun-off.

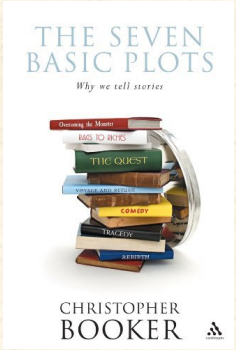
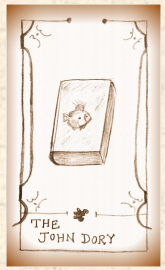
Seven “good” stories?:



“The Seven Basic Plots: Why We Tell Stories”
by Christopher Booker (2005). [3]

- Seven Gateways to the Underworld (?)
- Overcoming the Monster $\times 2$ and the Thrilling escape from Death (plot).
- Rags to Riches (plot).
- The Quest (plot).
- Voyage and Return (plot).
- Comedy $\times 2$ (plot but really structure).
- Tragedy $\times 3$ (plot).
- Rebirth (plot).
- The Dark Power: From Shadow into Light (master structure).



The taxonomy of stories:

- ANIMAL TALES 1-299
  - Wild Animals 1-99
    - The Clever Fox (Other Animal) 1-69
    - Other Wild Animals 70-99
  - Wild Animals and Domestic Animals 100-149
  - Wild Animals and Humans 150-199
  - Domestic Animals 200-219
  - Other Animals and Objects 220-299
- TALES OF MAGIC 300-749
  - Supernatural Adversaries 300-399
  - Supernatural or Enchanted Wife (Husband) or Other Relative 400-459

A searchable meta-graph can connect even troublesome house elves and other supernatural beings to scholarly folk categories.

BY JAMES ABELLO, PETER BROADWELL, AND TIMOTHY R. TANGHERLINI

Computational Folkloristics

"Computational folkloristics"
Abello, Broadwell, and Tangherlini, Communications of the ACM, **55**, 60–70, 2012. [1]

- Motivation: "As a simple, historical example from the Danish materials, no one has yet classified (according to the ATU index) the several thousand fairy tales in the collections of the Danish Folklore Archive (http://www.dafos.dk), nor does it seem anyone ever will."

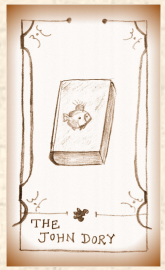
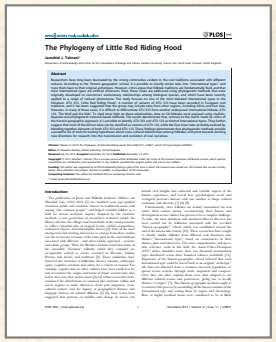
Computational Folkloristics

"Computational folkloristics"
Abello, Broadwell, and Tangherlini,
Communications of the ACM, **55**, 60–70, 2012. [1]

- Motivation: "As a simple, historical example from the Danish materials, no one has yet classified (according to the ATU index) the several thousand fairy tales in the collections of the Danish Folklore Archive (http://www.dafos.dk), nor does it seem anyone ever will."
- 'Imagine a system in which the complexities of a folklore corpus can be explored at different levels of resolution, from the broad perspective of "distant reading" down to the narrow perspective of traditional "close reading."'





"The phylogeny of Little Red Riding Hood"

Jamshid J. Tehrani,
PLoS ONE, **8**, e78871, 2013. [21]

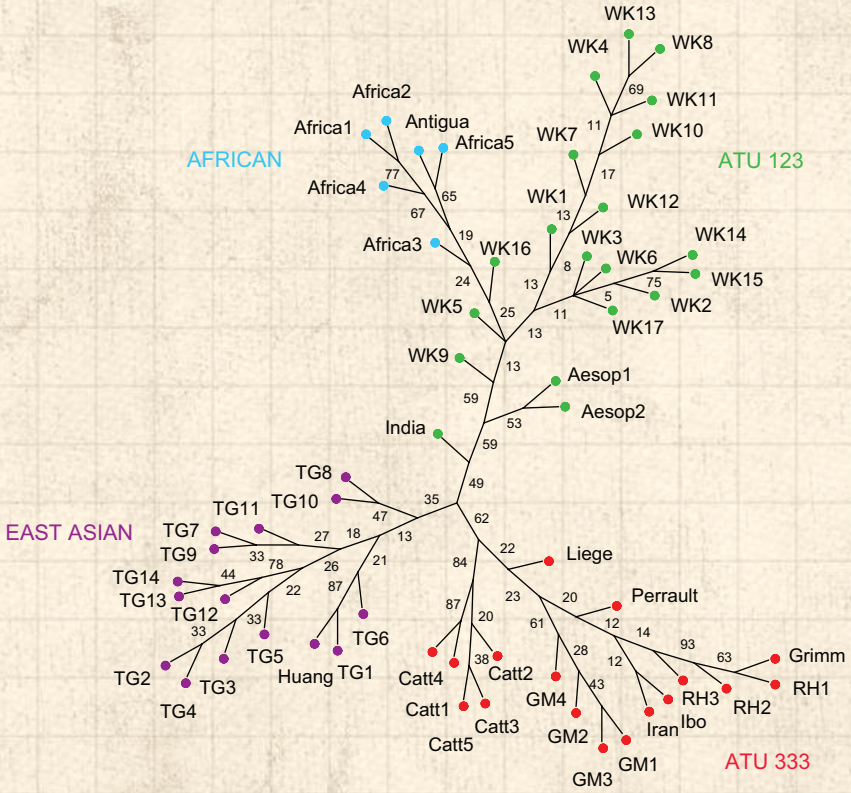


Figure 2. Majority-rules consensus of the most parsimonious trees returned by the cladistic analysis of the tales. Major groupings are labelled by region or ATU international type and indicated by the coloured nodes. Sub-types are indicated in the taxa labels (RH = Little Red Riding Hood; GM = Story of Grandmother; Catt = Catterinella; WK = The Wolf and the Kids; TG = Tiger Grandmother). Variants by particular authors, or from countries/ethnic groups that are discussed in the text have individual labels. Numbers beside the edges represent the level of support for individual clades returned by the bootstrap analysis.

Aside: From a 2013 Believer Magazine interview with Maurice Sendak:

BLVR: Did the success of Where the Wild Things Are ever feel like an albatross?

MS: It's a nice book. It's perfectly nice. I can't complain about it. I remember Herman Melville said, "When I die no one is going to mention Moby-Dick. They're all going to talk about my first book, about forking maidens in Tahiti." He was right. No mention of Moby-Dick then. Everyone wanted another Tahitian book, a beach book.

Movie script:
Portion of script scored for each point in timeseries.

Zed takes the chair, sits it in front of the two prisoners, then lowers into it. Maynard hands The Gimp's leash to Zed, then backs away.

MAYNARD
(to The Gimp)
Down!

The Gimp gets on its knees.

Maynard hangs back while Zed appraises the two men.

MAYNARD
Who's first?

ZED
I ain't fer sure yet.

Then with his little finger, Zed does a silent "Eenie, meany, miney, moe... " just his mouth mouthing the words and his finger going back and forth between the two.

Butch are Marsellus are terrified.

Maynard looks back and forth at the victims.

The Gimps's eyes go from one to the other inside the mask.

Stories are everything

- Probably, yes.

We talk about and study stories everywhere but ...

- We don't have a central place academically.
- Departments of: English, political science, folklore, cognitive sciences, arts, musicology, communication, ...

Organizing structure going forward:

- PLOS One foundational paper and collection[3]
- Annual meeting?
- Create a new journal: No.

[3] the journal formerly known as PLoS ONE

Observations/Claims/Questions:

- Primacy of storytelling and storybelieving in for individuals and populations.
- Maybe: Stories are dynamical paths; plots are algorithms that give rise to stories.
- Internet gives extraordinary power to propaganda, disinformation, conspiracy theories, ...
- Global social media creates a global robust-yet-fragile social system.
  - Failure can be endogenous (infighting) and/or ignited/supoorted from the outside.

Observations/Claims/Questions:

- Basic social fabric: What is the spectrum of stories in the media being told about classes of people, from within and without.
- Story decoherence: telephone game
- What about stories about global problems like climate change? Government? Journalism?
- All separately powerful: Words, Music/Sound, Visual, ... interplay?
- Outcome: How to communicate scientific findings powerfully.
