

BLUE BTV Rebate Amounts

2026 Season

Blue BTV is a residential green stormwater infrastructure incentive program for residents of Burlington, Vermont. BLUE BTV evaluators educate and collaborate with residents to identify opportunities for stormwater mitigation, affect behavioral changes, and establish stewardship principles to improve water quality in Lake Champlain. The following green stormwater infrastructure practices are eligible for rebates.

Rain Barrel(s) or Cistern	Up to \$125
Water Bars	Up to \$400
Vegetated Swale	Up to \$400
Rooftop Disconnection (Gutters)	Up to \$500
Impervious Surface Removal	\$250-\$1,000
Dry Well	Up to \$1,500
Infiltration Trench / Basin	Up to \$1,500
Trench Drain	Up to \$1,500
Rain Garden/Bioretention Basin	Up to \$1,500
Permeable Pavers	Up to \$2,000
Site Maximum	\$2,000

*Standards from our Basis of Design guide need to be adhered to and documented throughout the design process in order to receive rebates from the City of Burlington. Prior to moving forward with implementing any projects, please seek approval of your designs from BLUE BTV staff. They can be reached at blue@uvm.edu.
