

4-H Volunteer Workshops

Monthly Topics to Help You Navigate 4-H!

Workshops will be held virtually over Zoom from 6:30-7:30pm and will be presented by Allison Smith, 4-H Learning Experiences Coordinator & other 4-H staff

September 1—Creating Fun & Welcoming Virtual Meetings for Your 4-H'ers

This workshop will be packed with games, icebreakers, and techniques for you to try at your next virtual club meeting and to get your 4-H'ers coming back to meetings! Best practices for keeping youth safe in a virtual space will also be shared.

September 22—Club Financial Management 101

Take away the stress and mystery of club financial management. Keeping records of your club's finances are important for transparency, affording club learning opportunities, and any operating expenses. Join us for a run down of the documents you need to keep track of the most and get your questions answered.

October 20—4-H Online 2.0

Join this session to see the new look of the new 4-H Online 2.0! We will help you navigate the new system and get a first hand look at improved features. Get your club enrolled smoothly and stress free this October.

November 17—STEAM & Robotics

Why is everyone talking about STEAM and Robotics? First, it can be fun! Also, including activities in your club that build science, technology, engineering, art, and math (STEAM) skills will give youth the confidence to problem solve, think creatively, and grow. It doesn't matter what project your club focuses on, adding a little STEAM can add fun and a new twist to your club's activities.

December 15—Risk Management 101

In 4-H, we are hands on and hold our programs in a wide variety of settings. Find out about how we can reduce risk to achieve our primary goal: keep kids safe. This will also be a good session to get questions answered on specific situations and also to learn about some of the helpful tools and resources available to you.

Register for the workshops you would like to attend here:
