What 4-H policy, directive, rule, regulation, code of conduct principle, etc...has been violated?
____________________________________________________________________________

Revised Feb, 2022
Does this matter affect the integrity or perception of 4-H? If so, how?

____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

Signature of UVM supervisor in charge:______________________________ Date___________

***If there is a bodily injury or property damage, the UVM Incident Report Form must be filled out and sent to Risk Management. That form can be found in the 4-H Leader Training Series website http://www.uvm.edu/~riskmgmt/incident_report.pdf.

What now? What steps will be taken following the report? Upon submission of this form, 4-H staff will then turn this over to the 4-H Director, who will follow up with the person/people involved to share the concern, and seek additional details. Information sought will consider intent of situation, knowledge of rules, procedures, etc, and whether acceptance of responsibility and/or remorse was demonstrated, if appropriate. This information will then inform any disciplinary action, up to and including, removal from a program or activity. Protecting the health and safety of those involved in our program, and the integrity of the 4-H program, are paramount.

For more information, UVM 4-H’s Disciplinary Policy and Procedures can be found in the 4-H Policy Guide.
