# Informational Interview Sessions

Informational Interviewing is a opportunity to investigate a possible career by speaking with a professional in that field.

Join us twice a month as we sit down to chat with a variety of field professionals about their career and how they got there.

With the knowledge you will gain from these conversations, you will have a better sense for how to get to where you want to be!

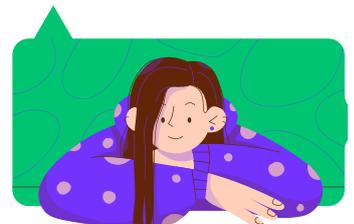

You will have a chance to ask professionals what they like/dislike about their jobs, any surprises or secrets they might share, and more. Don't know what your question might be? We'll have some ready for you if you need them!

Registration is required. [Please complete this form!](#)
