Cloverbuds Connect Presents:

Let’s Connect!

Become a Cloverbud Connector!
In April, UVM 4-H launched Cloverbuds Connect, short video challenges and activities for Cloverbuds (youth ages kindergarten-second grade).

We currently have a library of 30 videos and we are inviting all teens and tweens to become a Cloverbud Connector! As a Connector, you get to create short (5-10 min.) videos that are educational, hands-on, and inspiring.

- Is there something you are passionate about that could spark the interest of others?
- Do you enjoy creating short, fun videos for the internet or friends?
- Do you enjoy mentoring peers and younger learners?
- Are you 10+? (you do not need to be in 4-H)
- This is a project for you!

We use the platform Flipgrid, so all of the content is secure, private, and curated.

Interested in becoming a Cloverbud Connector? Please tell us about yourself by clicking [this link](#)!  

If you have any questions, or to request a disability-related accommodation to participate in this program, please contact kimberly.griffin@uvm.edu, so we may assist you.
