# How Did You Get There?

There are many careers out there, and just as many, if not more, pathways into those careers. This **How Did You Get There?** Series offers youth an opportunity to participate in **informational interviewing**, a chance to investigate an interesting career by speaking with a professional in that field.

Join us as we sit down to chat with a variety of field professionals about their career and the path(s) they took to get there. With the knowledge you will gain from these conversations, you will have a better sense for how to get to where you want to be!

You will have a chance to ask professionals what they like/dislike about their jobs, any surprises or secrets they might share, and more. Don't know what your question might be? We'll have some ready for you if you need them!
